Lider di AVP, mr. Mike Eman:

Gabinete Wever-Croes II kier chica 15 miyon florin di WEB y Elmar

Den prome ora di dialuna mainta lider di Partido di Pueblo Arubano (AVP) Mike Eman a para hunto cu un grupo grandi di ciudadano dilanti di edificio di Elmar pa protesta e plannan di Gabinete Wever Croes pa ranca 15 miyon florin for di Elmar y WEB.

Nan ta sinti cu no por keda keto mas pa e manera con Gabinete Wever-Croes II kier plunder Pais Aruba y su companianan pa sigui cu nan abuso y sigui beneficia nan mes. Para dilanti di sede di N.V. Elmar na Playa, lider di AVP cu un grupo di ciudadano a demostra cu documento y recibo den man, pakico nan y pueblo tin tur motibo di ta disgusta cu e gobierno di MEP y RAIZ. Esaki ta e mes un sentimento cu, te hasta, e propio Raad van Advies, ta expresa relaciona cu e intencion di gobierno di saca 15 miyon florin for di e companianan di utilidad WEB y Elmar.

“E pueblo Arubano a bin para pasobra nan ta cansa, nan ta disgusta,” asina Eman a cuminsa na bisa. E la sigui bisa: “E momento a yega pa pueblo bisa ta basta.” Raad van Advies mes ta cuestiona y condena gobierno formalmente. E entidad oficial aki a expresa su repudio despues di a tuma nota cu den presupuesto 2024 Gabinete Wever-Croes a pone un “winstuitkering” di Utilities Aruba N.V. na balor di 15 miyon florin. “Winstuitkering” ta e capa bao di cual gobierno ta bay saca 15 miyon for di Elmar y WEB. den presupuesto.

Mr. Mike Eman a puntra su mes ta con un gobierno por tin asina poco cuer’i cara pa laga hende grandi den dificultad pa paga nan awa y coriente; laga famia humilde den situacion cu mester scoge si ta pone pan riba mesa of paga e recibo di utilidad y riba dje bay ranca 15 miyon florin for di caha di WEB y Elmar. Esey ta un echo cu tambe Raad van Advies ta

cuestiona. Den nan carta pa gobierno y parlamento, Raad van Advies ta indica cu “*Tanto cerca Water en Energiebedrijf Aruba N.V. y N.V. Elmar na augustus y september 2020, e tarifa pa consumo di awa y electricidad a aumenta fuertemente*”.

Tocante di esaki Mike Eman a declara: “A bisa cu ta bay bah’e, pero te dia di awe ta djis un crenchi el a baha. Ainda pueblo ta bibando cu e aumento exorbitante cu Gabinete Wever Croes a impone riba pueblo. Nos ta bibando cu un gobierno cu ta chicando nos pueblo cu redoblacion di BBO, cu un BBO di 7% na frontera, cu un aumento di schoolgeld, cu pago di remedi. Medida tras di medida cu ta haci imposibel pa nos ciudadano por biba. Tambe e famianan di clase medio. Negoshinan chikito no por sobrevivir pasobra costo di haci negoshi a bira impagabel. P’esey tur dia mas ta haya nan ta cera nan porta.”

Riba dje ta mina e viabilidad di y confiansa den e companianan estatal di utilidad. Esaki a keda refleha ora cu e lider di AVP a lesa textualmente for di e carta di Raad van Advies caminda nan ta bisa: “*Raad ta puntra su mes, den e cuadro aki, con lo ta posibel e ora ey pa Utilities Aruba N.V. tin e espacio financiero pa un winstuitkering*.”

Cu otro palabra, si a hisa e prijs pa yuda e companianan estatal cu tabata falta placa, con por ta posibel cu awor ta existi e mes un companianan pa duna gobierno 15 miyon florin? E 15 miyon aki ta bay den mesun “black hole” unda cu 1.5 biyon extra di entrada di Gabinete Wever Croes a bay. Ningun hende sa unda e 1.5 biyon aki a bay. E ta e pregunta grandi den pueblo: unda e 1,5 biyon extra di entrada cu Gabinete Wever Croes a cobra na medida di 2017 pa 2023 a bay?

Si a baha gobierno pa Alan Howell anto 446 kilo di cocaina tambe por

Gabinete Wever Croes II a haya su mes den un situacion sumamente bergonsoso y conflictivo, na momento cu a bira conoci cu e empresario Colombiano, Carlos Eduardo Restrepo Osorio, conoci como 'Caco,' a entrega su mes na autoridadnan hudicial Mericano.

Tur esaki lo tin di haber c'un caso di droga caminda a confisca un avion cu tabata carga e cantidad impresionante di 446 kilo di cocaina, na luna di mei di 2021 cu a keda confisca pa autoridadnan Colombiano.

'Caco' a dicidi di entrega su mes na autoridadnan Mericano di e departamento di DEA cu tin su persona sospechoso den e transportacion di e bulto miyionario di cocaina cu tabata destina pa Merca y kende tabata ser considera un di e doñonan di un compania cu ta maneha servicio di avion- y helicopternan.

Un di e helicopternan aki lo ta esun cu ta ser uza aki na Aruba pa Cuerpo di Polis for di luna di Mei di 2019 te cu awe y cual acuerdo a ser firma pa e tempo ey Minister di Husticia, Andin Bikker mientras cu pa e compania Colombiano e tempo ey, afirma Carlos Osorio cu ta esun cu a entrega su mes na oficialnan di DEA recientemente.

Loke ta pone Gabinete Wever Croes den un situacion sumamente dificil y delicado, ta e hecho cu como gobierno cu a bin ta insistiendo cu tin cu goberna a base di integridad, anto e situacion aki ta uno sumamente delicado y hopi controversial, sigur si hasta tin un Minister encarga cu integridad cu ta sr Ursell Arends.

Carlos Restrepo Osorio aki inicialmente lo wordo sometí na un interrogacion profundo ya cu ainda no tin prueba concreto cu su persona lo ta doño di e lote di droga cu a wordo confisca pero el a bira sospechoso ora cu autoridadnan encarga cu e caso, a bin haya un cantidad di intercambio di mensahe di un

di e pilotonan cu a keda deteni cu e avion cu e droga.

Dos persona a keda deteni cu e avion, cu ta e piloto Juan Camilo Cadena y su co-piloto Harold Dario Rivera y for di e dos personanan aki, autoridadnan a confisca celularnan cu ta pertenece na e piloto Cadena.

Den e aparatonan aki, autoridadnan a bin haya un serie di yamada y chats cu a wordo dirigi na momento cu nan a wordo descubri pa autoridadnan policial, caminda e yamadanan mescos cu chats cu a wordo dirigi na Carlos Eduardo Restrepo Osorio, alias Caco cual a pone cu DEA a solicita su detencion na autoridadnan internacional.

GOBIERNO

Ayera mainta Prome Minister Evelyn Wever Croes y Minister di Husticia Rocco Tjon tabata hopi incomodo pa reacciona riba e desaroyo relaciona cu e compania for di cual gobierno ta huur e helicopter di polis.

Riba dje Minister di Husticia a wordo confronta cu e hecho cu Alto Inspector di Cuerpo Policial, Ramon Arnhem, a dicidi mesora cu suspende tur actividad di e helicopter te cu proximo aviso hincando e titular di husticia den un situacion di incomodidad.

Di otro banda si na luna di Maart di 2021 Prome Minister a dicidi di bay oficina di Gobernador y entrega peticion pa dissolve e Parlamento e tempo ey, nificando caida di Gabinete Wever Croes I, pa falta di integridad di parti di e lider di POR e tempo ey, anto e caso aki ta mucho mas serio y ainda mas delicado cu loke Alan Howell a pasa aden.

Cu por spera caida di Gabinete Wever Croes II den proximo oranan no ta den wega na e momentonan aki ya cu Prome Minister ta na New York pa topa cu Prome Minister demisionario di Hulanda, Mark Rutte y tambe e lo reunion cu Secretario di Estado Alexandra van Huffelen un biaha mas.

Pa Victor 'Toko' Winklaar

Podium riba cual Jaime Saleh ta para Gilmar Pisas no por subi

E carta cu Prome Minister di Corsou, Gilmar Pisas a dirigi na sr Jaime Saleh relaciona cu su posicion honorabel di "Minister van Staat" di Corsou, a ser cuestiona formalmente pa hopi hende cu conoce e persona di Jaime Saleh.

Den e propio carta di Premier Pisas, ta ser muestra cu Jaime Saleh a ocupa algun funcion top den e sector constitucional manera entre otro Presidente di Corte Comun di Husticia, e posicion di Gobernado di Antias Hulandes y pa despues di 10-10-10, a ser nombra como 'Minister van Staat' di pais Corsou cu ta un posicion honorabel.

Tambe tin cu agrega cu sr Jaime Saleh despues di su periodo como Gobernador di Antias Hulandes, a ser nombra como Consehero di Cas Real bou di Reina Beatrix y ainda e ta sigui eherce e obligacion aki pa yiu di e ex Reina.

Tabata Minister Plenipotenciario di Corsou na Den Haag kende a informa Premier Pisas cu sr Saleh e siman aki cu ta e siman di Prinsjesdag cu a inicia ayera y lo termina dia 22 di September,

cu sr Saleh den su calidad di Minister van Staat di Corsou, ta invitado na varios actividad oficial relaciona cu Prinsjesdag y tambe e tin cu atende un conferencia den cual lo trata e tema di 'Levende Cultuur en een duurzame samenleving binnen het Koninkrijk.'

Prome Minister di Corsou no kier pa Saleh atende e ceremonianan na cual e ta invita como Minister van Staat indicando e "rol" cu e persona aki a hunga den ultimo desaroyonan relaciona cu e asunto di Ennia caminda doño di compania aki, a malversa casi un biyon di fondo di pensionadonan cliente di e compania.

Jaime Saleh lo a fungi un periodo como comisario di e compania aki y awor Parlamento di Corsou a pidi informacion riba su participacion den henter e asunto aki, loke a pone Prome Minister Pisas hasta pone un ultimatum pa sr Saleh.

Si pa dia 30 di September venidero cu ta aki dos siman Jaime Saleh no entrega por escrito su retiro como Minister van Staat di Corsou, gobierno di Pisas lo tuma medida necesario pa haci esaki.

Henter e desaroyo aki a lanta hopi reaccion, sigur di esunnan cu conoce Jaime Saleh personalmente, cu a sigui su trayectoria di su carrera impresionante, esunnan cu conoce su mentalidad y caracter, kende a ocupa posicionnan halto y clave den comunidad, pa awor wordo confronta c'un acusacion di Prome Minister cu ta mishi cu integridad di sr Saleh. Sigur ora cu e ta ser haci pa un Prome Minister kende a dirigi un partido di MFK cu su fundado Schotte a ser condena y encarcela pa fraude cometi y tambe pa otro asuntonan fraudulento y kende a wordo prohibi di carga un funcion publico pa un periodo largo.

Esey ta e cuna politico di Gilmar Pisas y awor cu su persona y su gobierno ta cuestionando integridad di un persona conoci pa su integridad, e ta causa irritacion y ta laga un sabor amargo atras.

E podium publico riba cual sr Jaime Saleh a para pa henter su carrera profesional, e respet cu el a demostra den tur su obligacion riba tur nivel cu mester a carga den comunidad, ta haci dificil pa kere cu Premier Pisas lo por tin e trayectoria aki riba su number.

Minister di Turismo y Salubridad Publico ta anuncia cu entrante **20 disepember 2023** durante 14 dia lo tin oportunidad pa un y tur tuma conocimiento na Departamento di Legislacion y Asunto Huridico, **Schotlandstraat 53**, di un peticion cu a ser haci pa obtene un koffiehuis- y un restaurantvergunning A pa e parcela **Weststraat 2, 2^{de} verdieping, Exhibit A**. E permisonan aki ta concerni e.o. benta di bebida sterki por detel y cuminda pa consumo den e parcela. Durante dicho periodo aki tur hende por expresa por escrito nan obheccion contra dunamento di e permisonan menciona, dirigi na e Minister di Turismo y Salubridad Publico, via intermediacion di Director di Departamento di Legislacion y Asunto Huridico, Schotlandstraat 53.

Prome Minister di Aruba ta duna un splicacion di RAft y negociacion cu Hulanda

Den conferencia di prensa di Gobierno di Aruba, dialuna mainta, Prome Minister Evelyn Wever-Croes a elabora riba RAft y negociacion cu Hulanda. Un tema cu ta hopi actual pa motibo cu na October 2023 e debe cu pais Aruba a presta for di Hulanda di AWG. 916 miyon ta vence y sea nos mester paga of refinancia.

HULANDA TA DISPUESTO PA REFINANCIA

Prome Minister a indica cu Hulanda ta dispuesto pa refinancia mescos cu si Aruba lo mester a bay busca e fianza riba mercado internacional y a pone e oferta esey pa (1) un periodo di 20 año, (2) na interes di 6-8%, probablemente 6.5%. Pero den e oferta aki, riba e placa aki, Hulanda mes ta paga 3% pa e fianza, y ta fia nos e na 6%, pues nan ta gana 3% riba e fianza aki. Si e fianza ta pa 20 año, nan lo gana mas di 300 miyon florin di nos pagadonan di impuesto. Esaki, Prome Minister a remarca, no ta ayudo segun nos statuut. Ayudo segun statuut ta pa baha e interes. Hulanda den e caso aki lo gana hopi placa riba nos.

CONDICION

Hulanda a indica cu e ta dispuesto pa baha e interes te na 3.2%, pero cu como condicion pa kita e supervision financiero for di man di pais Aruba, Gobierno di Aruba y Parlamento y traspasa esaki pa Reino, den un rijkswet, e RAft. Esaki ta asina na Sint Maarten y Corsou for di año 2010. Den varios ocasion, Gobierno di Aruba a splica Hulanda cu no tin confianza cu un rijkswet lo funciona pa Aruba.

Un Rijkswet lo kibra e economia di Aruba y lo stroba crecimiento di nos pais. Nos por compara e crecimiento di Aruba cu esun di Corsou y St Maarten cu desde 2010 tin e Rijkswet, por mira e diferencia. Ademá, Corsou y St Maarten a haya dispensacion di nan debe ora nan a haya e rijkswet, siendo cu pa Aruba awor Hulanda kier un rijkswet pero no kier duna ningun dispensacion pa loke ta trata debe di Covid.

ARUBA SURPLUS Y TA PAGANDO DEBE

Aruba ta un pais autonomo, y nos a demostra cu prueba cu e supervision manera e ta awor, den man di Aruba, ta funciona. Aruba ta e unico pais den Reino cu tin surplus, y ta pagando debe. Nos debe nacional ya a baha di 96.6% na 2022, pa 88.3% comienso di e año aki, y lo sigui baha pa 82% otro año. E meta ta pa na 2031 e ta na 70%. “Nos no kier pa e desaroyo aki kibra pasobra si nos economia kibra, nos no lo genera surplus y lo no por page debe bek”, Prome Minister a remarca.

EVALUACION DI ALGEMENE REKENKAMER DI HULANDA

Prome Minister a menciona un otro argumento cu ta Algemene rekenkamer di Hulanda cu a evalua e funcionamiento di e rijkswet similar na Corsou y Sint Maarten y a conclui cu e rijkswet ey ta stroba desaroyo socio-economico di e paisnan. Y a urgi Hulanda pa evalua e funcionamiento di RAft. Esey a pone tambe cu Hulanda a dicidi cu lo mester evalua e rijkswet su funcionamiento. E evaluacion aki no a tuma luga ainda. Aruba a pidi tambe pa evalua e LAft y CAft na Aruba. Esaki tampoco a tuma luga ainda. Despues cu e evaluacion aki tuma luga, Aruba lo dicidi tambe den cua direccion lo sigui cu supervision financiero.

“E condicion aki pa baha e interes na 5.1% pa e siguiente dos añanan, y si despues nos duna nan e rijkswet nan lo bahe na 3.2%. Esaki ta un condicion cu Gobierno tawata tin hopi problema cu ne y no por a acepta. Sinembargo pa necesidad nos mester a acepta esaki na fin di año 2020 y despues atrobe na año 2021”, Prome Minister a indica.

Bin bishita nos y probecha!

Paña di bon calidad na bon prijs.

Raft ta pasado

Pensionadonan ta rekeri tur atencion di gobierno y parlamento

Pa proximo dos aña Aruba tin cu paga su “coronalening” na un interes di 5% y esaki ta conta tambe pa e otro dos islanan, esta Corsou y Sint Maarten loke ta pone cu pa e momentonan aki, RAft no mester sigui ser mira como e unico asunto cu gobierno tin cu regla.

Tin situacionnan social serio cu ta birando dia pa dia mas pio considerando cu esunnan cu tin menos entrada, simplemente ta sigui bay atras den nan bida diario caminda por asumi cu di mas di 30 mil pensionado, tin un 70% sigur kendenan ta pasando den temponan dificil.

A scucha hopi hende papia di RAft, cual ta mishi cu autonomia di Parlamento pero mientras cu e discusion cu si kier RAft y no kier RAft, un grupo grandi di pensionado ta bin ta hibando un otro lucha, pa sobrevivencia diario, hunto cu nan casa of otro familiar den cas.

Simplemente placa no ta yega den mayoria di cas aki na Aruba y storianan cu tin grandi nan cu ta biba den calor ya cu prijs di coriente ta hopi halto, cu ta uzando menos awa posibel ya cu aki tambe e prijs di awa ta demasiado halto pa biba manera antes.

Pa no papia mes di loke ta asunto di nan salud, ya cu e pensionado ta drenta un era nobo, un era caminda ta birando mas y mas dificil pa haya suficiente fondo pa paga medicina cu nan tin mester ya cu net na momento cu nan sinti malo, ta surgi cu a situacion financiero no ta alcanza pa esey.

E situacion ta sumamente delicado y si paga bon tino awendia, por mira varios pa no bisa hopi, hende grandi, pensionadonan cu ta cana cu paña cu ta sushi riba caya ya cu nan no tin e placa necesario pa paga e prijs halto di awa ni coriente, pa laba nan pañanan manera antes tur siman.

Ta tristo pa mira e cos aki sosode den un pais cu ta ser considera un di e islanan den Caribe mas rico pero di otro banda e falta di un programa social, e falta di un vision pa atende cu esunnan mas vulnerabel den tempo menos bon, ta crea e tipo di fenomeno aki.

A aumenta prijs di awa y coriente sigurando tur hende cu dentro di algun siman lo baha e prijs di awa y coriente bek pero nunca esaki a sosode y por mira den supermercadonan, parehanan grandi canando cu garoshi bashi, ya cu e placa no ta alcanza manera antes pa stock cashi y ‘frigid-aire’ cu cuminda pa henter e siman of luna.

DISCRIMINACION SCONDI

Tin un discriminacion scondi for di bista general tumando luga contra hendenan grandi, hendenan cu a traha duro pa e pais aki progresa y yega te na unda cu e ta awe y kendenan no tabatin e suerte di a baha c’un pensioen adecuado y cu ta suficiente pa nan hiba un bida decente.

Hopi di nan a wordo obliga pa busca un trabou, pa haya un entrada adicional pero si esaki wordo haci segun leynan laboral y di SvB, e pensionado aki lo bay perde ainda mas na aumento di impuesto cu e tin cu paga pa motibo di tin un otro entrada banda di su pensioen.

Awor tin un situacion cu comerciantenan no kier tuma un pensionado den servicio y trahadonan cu yega nan edad di pensioen, ta ser manda cas sin cu esaki ta rekeri pa ley, pa colmo apesar cu e pensionado aki ta bon di salud, ta bon den condicion y a traha semper cu mesun gana y dedicacion.

Ta un tempo dificil pa pensionadonan pero tambe pa esunnan cu ta cobra salario minimo y miles cu ta cobra menos cu salario minimo, ya cu nan tin cu acepta “algo” cu cual nan ta trata di sobrevivi den e tempo financieramente dificil aki.

Parlamentario independiente, mr. dr. Rycond Santos do Nascimento:

Segun gobierno e comunidad LGBTQ+ mester proteccion contra ideanan religioso

Señora Evelyn Wever-Croes a lansa un maneho aña pasa na mei 2022 yama: “ARUBA NATIONAL GENDER POLICY”. E documento ta wordo presenta como un maneho pa cu derechonan di hende muhe. Sin embargo e documento ta enfoca riba proteccion di hende muhe y e comunidad LGBTQ+. Lesa specialmente paragraf 1.3, titula Socio-Cultural Gender Norms and Stereotypes, riba pagina 13. Segun gobierno e pensamiento cu genero y sexualidad ta fijo y cu ta existi diferencia entre homber y muhe ta anticua y ta forma un peligro pa hende muhe y e comunidad LGBTQ+. P’esey gobierno ta haya cu e mester proteha e comunidad LGBTQ+ y combati e ideanan cu ta hancra den nos cultura y religion. Segun Wever-Croes ideanan anticua di sexualidad ta causa angustia, problema di salud mental, inseguridad fisico y hasta suicidio den e comunidad LGBTQ+.

Gobierno kier promove un identidad personal y sexualidad cu ta totalmente liber di diferencianan biologico entre homber y muhe. Obviamente gobierno ta alinea su mes cu e idea cu cada persona por scoge y cambia su mesun identidad manera le da la gana. E pensamiento cu gobierno kier promove ta cu matrimonio entre un homber y un muhe no ta nada mas cu un herencia di masculinidad toxico y un patri-monio patriarcal-religioso.

Un problema fundamental cu e maneho aki ta cu pueblo no a vota pa introduccion di e ideologia aki. Es mas, e ideologia aki ta bay linea recta contra e vision catolico-cristian, mientras cu un grupo importante di nos comunidad ta kere den e vision religioso aki. E vision aki ta basa riba e doctrina cu Dios a crea hende na su imagen como homber y muhe. Segun e vision aki homber y muhe ta forma un union intimo cu Dios. Homber y muhe ta completa y complementa otro pa medio di nan diferencianan, respetando e dignidad di otro. Nan ta forma e sociedad natural cu ta produci bida nobo. Asina ta surgi un relacion nobo y unico di amor entre mayornan y nan yiunan. Den cuadro di e relacion aki mayornan tin e derecho y obligacion pa educa nan yiunan. Gobierno no tin derecho pa kita e responsabilidad aki. Na su turno yiunan tin derecho di crece den un famia, cu un tata y un mama cu ta crea un ambiente na unda e yiunan por desaroya nan identidad y madura pa motibo di un relacion familiar cu masculinidad y feminidad di un tata y un mama. Ta den e famia aki e yiu ta wordo educa pa reconoce e balor y e beyesa di e diferencia sexual, di igualdad y di intercambio a base di respet.

E derechonan aki ta bay man den man cu derechonan fundamental manera e libertad di pensamiento, consciencia y religion.

Awe señora Evelyn Wever-Croes a encarga e “ARUBA NATIONAL GENDER POLICY” den man di Geoffrey Wever pa ehecuta e maneho aki. Geoffrey mester bay inventarisa con discriminacion di e grupo LGBTQIA+ ta tuma luga. Tambe e mester percura pa “educa” pueblo y nos yiunan encuanto e ideologia LGBTQIA+. Pueblo no a vota pa esaki y ta pueblo so tin e autoridad pa duna gobierno un mandato pa bay persigui catolico-cristian den e pais aki, pa motibo cu nan ta kere den e masculinidad y feminidad di un tata y un mama.

Nos ta dilanti un situacion na unda Iglesia Catolico, iglesianan protestant y iglesianan evangelico a muestra caba unda nan ta para. Casi 20 mil ciudadano a duna nan firma pa sostene famia y matrimonio tradicional. Awo yabi politico ta den man di un par di parlamentarionan cu ta yama nan mes cristian. Como miembronan di coalicion nan ta den e posicion unico pa forsa cambio. P’esey e responsabilidad ta riba nan schouder pa demostra nan compromiso cu principionan. Ta ora pa Hendrik Tevreden y Marco Berlis mira señora Evelyn Wever-Croes den su wowo y exige cu tur frankesa y curashi pa e retira tur elemento anti-catolico y anti-famia for di su maneho “ARUBA NATIONAL GENDER POLICY” y for di presupuesto 2024.

Parlamentario Mike de Meza (AVP):

Gobierno kier saca ganashi di tarifa halto na WEB y Elmar

Dialuna mainta e parlamentario y ex-minister di energia tambe tabata dilanti di oficina di N.V. Elmar pa sostene un grupo di ciudadano cu a bay demostra nan malcontento pa e echo cu Gabinete Wever-Croes II kier saca 15 milyon florin for di e companianan di utilidad. Pa de Meza, esaki ta inaceptabel ya cu a aumenta e tarifa di awa y coriente for di aña pasa cu awe costo di bida a bira impagabel pa pueblo.

Riba lomba di e humilde ciudadano e companianan di utilidad a haya un entrada adicional di mas cu 100 milyon florin. E parlamentario a cuminsa na confirma di un manera mas amplio, loke su colega y lider di partido, mr. Mike Eman a menciona anteriormente, esta cu entre 2001 y 2009, gobierno di asignatura di MEP a saca millones for di e companianan di utilidad, creando un inestabilidad financiero cu a pone nan existencia na peligro.

T'asina cu durante Gabinete Oduber III y IV, e gobierno di MEP a chika 252 milyon florin for di WEB y ELMAR. Pa Mike de Meza "Ta incomprendibel cu awe atrobe e mesun partido MEP, pero awor bou liderazgo di Evelyn Wever-Croes ta bolbe chika e companianan aki". Ya pueblo ta harta y ta sclama cu no por mas!

"Si bo mira prijs di gasolin y diesel, ya gobierno aki a saca casi 100 milyon florin adicional for di accijnzen y di BBO, den menos di 7 aña. Tempo cu AVP tabata den gobierno, no a ni mishi cu accijnzen y hasta reduci BBO. Manera cu MEP a drenta gobierno, a aumenta accijnzen cu entre 10 cen y a redobla BBO. E ingeniero di profesion a splica cu si tuma na cuenta cu WEB tambe a introduci e motornan

Recip adicional, cu ta representa un spaarmento den consumo di combustibel di casi 1000 bari menos pa dia, ta equivalente na otro 40 milyon florin menos di gasto. Pero keto bay ta castiga e humilde pueblo na man di e gobernantenan actual.

"Asina mes, te dia di awe pueblo no por mira un rebaho den su costo di bida. Esaki ta abuso inaceptabel di e gabinete, Evelyn Wever-Croes" de Meza a expresa mientras e ciudadanonan rond di dje tabata sclama cu e placa aki ta bay den saco di e mandatarionan actual.

Den conclusion, colega di partido Mike Eman a indica cu hopi di e ciudadanonan disgusta cu a presenta na Elmar dialuna mainta a mustre nan recibo di awa y coriente, contando con algun ta hende di edad avansa y cu den e dianan aki di calor y pa motibo di salud fragil no tin otro opcion cu haci un consumo halto di coriente pa cende aircó, mientras ta ansha pasobra nan sa cu despues tin cu paga un recibo pisa.

Parlamentario Ricky Hoek:

RAft manera cu e ta awo ta mina autoridad di parlamento

E ta logico cu ora bo ta fia placa bo tin cu paga bek. Sinembargo e condicionnan bou cual Hulanda kier obliga nos paga ta inaceptabel y mester ta inaceptabel pa tur cu ta stima e pais aki. E ta duidelijk cu na ningun momento nos por papia di un consensus paso tur parlamento, incluyendo parlamento Hulandes, a desaproba e proceso encamina pa cu e ley di COHO y e RAft. COHO a baha for di mesa pero ainda Hulanda no por splica dicon RAft si tin cu keda.

Pa pueblo compronde un poco mas miho, Evaluatie Adviescommissie cu a evalua RFT a conclui den un rapport cu e supervision di Rft ariba Corsou y Sint-Maarten (e mesun cu nan kier impone awor riba Aruba) a stroba e crecemento socio-economico di e islanan. Un economia cu no por crece ta nifica un economia tranca, un economia unda no por inverti, un economia unda cu no lo por genera mas placa pa paga nos debenan. Manera ya menciona, e ta logico cu ora di fia tin di paga bek y na esaki tin condicionnan mara, sinembargo e ta incomprendibel con e condicionnan aki bay asina leu pa kita e autoridad di Parlamento di Aruba. Si no ta pa e

pandemia cu a asota mundo, ningun momento nos lo mester a bati na porta di Hulanda pa fia placa! E placa aki tawata pa mantene cabes di nos pais riba awa, pa asina Gobierno por a paga Fase, Loonsubsidie y brinda sosten financiero na companianan chikito y mediano.

Nos ta un pais autonomo, e supervision cu nos tin awor ta funciona. Nos ta e unico pais den Reino cu tin surplus, nos debenan a baha te cu 88.3% e aña aki siendo cu na final 2020 e tawata riba 100%. Cu gobernacion responsabel pueblo por mira con nos mes por, pues pakico pone tur cos den man di Tweede Kamer y Minister di Finansa di Hulanda? Nan sigur no ta compronde e contexto di nos pais y tampoco ta interesa den desaroyo berdadero di nos pueblo.

E ta incomprendibel con tin politiconan, gremio y demas persona cu ta bisa di tin pais na pecho ta grita pa gobierno firma e RAft

Eric Ras(Curpa):

Gobierno di Aruba no ta nan, nan ta pio cu tur gobierno anterior

Mas informacion ta saliendo na luz di dia pa locual cu ta trata nos gobierno. A entrega un presupuesto ficticio y kier keha di Hulanda. Ta obvio cu tin un diferencia di opinion enorme entre e gobierno di Aruba y Hulanda. Nos gobierno awor kier hunga rol di victima y kier laga nos kere cu nan no ta Hulanda esta un mal partner den Reino, pero nos pueblo sa cu nan no ta miho cu Hulanda tampoco.

Con bo kier papia di un presupuesto cu un surplus mientras fiesta ta sigui y ta crea mas debe. E aña aki so ya gobierno a fia mas cu 413 miyon florin. Prome biaha a fia 165 miyon florin y locual cu pais Aruba lo paga ta bay ta 96.5 miyon florin na interes. E di dos prestamo ta di 160 miyon florin y locual cu pais Aruba lo bay pagan a interes ta 135 miyon florin pa motibo di e periodo di pago. E di tres prestamo ta di 88 miyon florin cu lo costa pais Aruba na interes di 45.7 miyon florin. Nos ta papia di un total di 277 miyon florin na interes. Biba MEP. Fuera di esey un hende lo cobra un interes di 0.625% cu lo sali 2.6 miyon florin y tambe 5 miyon florin lo bay na gastonan di administracion.

Partido MEP ta trahado duro pero no na interes di pueblo di Aruba sino na nan mesun interes di Dios. Pueblo lo saca su conclusion. Gobierno di partido MEP ta prefera di laga nos grandinan pasa hamber, paga pa nan remedinan, paga un gasolin caro y mas halto cu otro islanan di Caribe Hulandes, ta saca dividendo y no ta worry cu pueblo mester paga un prijs halto pa awa y electricidad, no ta worry cu esnan sin trabao y laga nos mucha keda sin bay scol paso schoolgeld ta inpagabel, laga e planta di purificacion na Bubaliplas sigui manda awa sushi lama pero basta por sigui fiesta, biaha y core den auto di luho cu nan mes lo no por paga. Esaki ta e gobierno comunista cu nos tin.

Nos di partido Curpa ta kere cu papa Dios a kita su pidjama y e tin e zweep den su man. Gobierno a suta pueblo cu medida y ta yega tempo pa gobierno recoge locual cu nan a sembra. Gobierno su Titanic a sink caba y awor ta esnan cu por, mester mira con nan lo salba. Gobierno su carchi bingo a muha. Unico alternativa ta partido Curpa.

Eric Ras(Curpa):

Minister President mester publica e documento “Aruba National Gender Policy”

Nos tin un documento cu minister president a laga traha aña pasa na mei 2022 bao di e titulo “Aruba National Gender Policy”. Mientras nos minister president a hunga comedia y entretene pastooran, e Aruba National Gender Policy tabata den proceso. Esaki no ta nada nobo paso nos minister president ta carece di integridad.

For di un principio caba nos di partido Curpa a expresa cu nos minister president lo no bay hala for di e desaroyo Sostenibel agenda 2030 si su mes a bay di acuerdo cu’ne. No ta por nada el a firma 17 di December 2020 e Common Trust Network y asina Aruba a bira e prome pais den Caribe cu ta join e World Economic Forum cu tin e lema “you’ll have nothing and you will be happy, esta lo bo no tin nada y lo bo ta feliz. Esaki nos minister president ta pushando pa asina caba di kibra economia di Aruba pa e lema “lo bo no tin nada y lo bo ta feliz” bira realidad. Un agenda satanico.

E mas tristo ta cu nos tin parlamentarionan supuestamente Cristian cu a tuma tur pastooran haci. Pakico? Paso nan ta forma parti di partido MEP y nan no por bisa cu nan no sa di e documento cu minister president a laga traha esta Aruba National Gender Policy. E parlamentarionan aki sa tambe locual cu ta hinca den e landspakket y tambe ta hinca den e memorie van toelichting di e begroting 2024. E acuerdo di Onderlinge

Regeling ta pio paso ey den ta para cu pais Aruba no por hiba Hulanda dilanti hues. E proceso ta cana su caminda y nos tin e parlamentarionan supuestamente Cristian ta sigui defende nan partido y no ta interesa den e pueblo Catolico ni tampoco den e otro nominacionnan Cristian. E parlamentarionan supuestamente cristian tambe ta carece di integridad paso nan sa masha bon kico ta pasando y ta haci manera cu nan no sa. Esta traidor nan ta. Tuma ehempel di ex parlamentario Lejuez cu a para firme locual cu e ta kere aden y a distancia.

Hopi tristo cu e parlamentarionan supuestamente Cristian cu a laga Cristian nan para den solo cayente pa colecta firma pa awor ta traiciona nan. E tema aki nan no ta trat’e mes paso ta bon para skirbi cos di pasado y ta sali na defensa di su partido MEP cu ta sostene un agenda satanico. Esta un berguensa. Falta di caracter. E Metanan di Desaroyo Sostenibel of Sustainable Development Goals no a cuminsa despues di eleccion di juni 2021 sino e tin hopi tempo caba ta tumando luga. Gobierno di partido MEP den nan periodo di gobernacion di 2001 pa 2009 tabata di acuerdo caba cu e agenda 2021 cu awor ta e agenda 2030. P

otretan cu fecha ta pruebanan cu partido MEP ta sostene e agenda 2030 y no tira culpa riba partido RAIZ. Partido MEP ta cosechando locual cu nan mes a sembra. Escandalo tras di escandalo y e parlamentarionan supuestamente Cristian tambe ta forma parti di e escandalo aki paso nan no ta para pa principio. E agenda aki ta contra di e famia institui pa Dios y ta contra di bienestar di nos criaturanan. Partido Curpa ta e unico alternativa.

Parlamentario Shailiny Tromp-Lee:

Ta incomprendibel cu tin parlamentario y gremio cu kier pa Gobierno firma RAft “as is”

Analizando e desaroyo den opinion y pensamento ultimo dianan encuanto e negociacionnan andando entre Gobierno y Hulanda pa loke ta trata refinanciamiento di nos debe cu Hulanda, mi ta keda preocupa. Urgi of kier exige Gobierno pa sin mas acepta RAft “as is” como condicion ta algo incomprendibel. Esaki ta e caso caba si solamente nos mira e trayecto encamina y postura demostra pa Hulanda. Pero ban laga esakinan un banda y ban analisa e impacto cu cierto normanan ancra den e concepto di ley lo por tin pa nos pais. No solamente Fraccion di MEP a bin ta señala esakinan, pero tambe Raad van State di Hulanda, Raad van Advies di Aruba, Evaluatie Adviescommissie cu a evalua RFT (ley di supervision financiero di Curaçao y Sint Maarten) y e experiencia di nos rumannan isla cu RFT.

Corectamente Raad van State di Hulanda ta indica den su conseho (No.W04.20.0423/I/K pag. 4) cu e normanan ta para den caminda pa por haci inversion den nos pais. Banda cu mester percura cu nan ta realistico, alcansabel y sin consecuencia negativo, tambe mester tene debito cuenta cu e impacto cu nan por tin a largo plaso pa nos pais. Pasobra e realidad ta cu e normanan ta tranca e capacidad di crecemento di nos economia door di limita e posibilidad di haci inversionnan necesario y importante. Pa fortalece nos economia y pa e ta uno mas robusto, duradero y sostenibel, nos mester haci nos pais menos dependiente di turismo. Pa logra esaki nos mester crea pilar(nan) economico nobo door di inverti den diversificacion. Door di e normanan esaki ta keda obstaculisa pasobra e inversionnan necesario no por

tuma luga. E norma aki a impacta negativamente e desaroyo economico na Curaçao y Sint Maarten. Dus ta incomprendibel cu Hulanda kier sigui impone dicho norma riba Aruba tambe.

For di e conseho di e Evaluatiecommissie 2021 ‘Toezicht en beheer in het teken van groei’ (evaluacion di Rft Curaçao/Sint Maarten di añanan 2018-2020) cu e islanan ta indica cu e manera con supervision ta keda realiza actualmente tin efecto indesea riba e desaroyo di un strategia socio-economico a largo plaso. Diferente rason ta keda presenta, por ehempel, cu e normanan ta conta aña tras di aña y por lo tanto nan no ta ofrece e margen necesario pa por haci inversionnan importante y necesario cu den futuro mester percura pa e rendimiento necesario y desea. Tampoco e normanan ta tene cuenta cu “consumptieve uitgaven” tambe por tin nan rendimiento economico structural of pa algun aña manera por ta e caso cu enseñansa.

Na Europa tin acuerdo cu e presupuesto mester ta den balans of mester tin un surplus. Sin embargo, e obhetivo aki no mester keda alcanza de inmediato, mas bien e paisnan di EU mester demostra cu nan ta trahando pa logre. Ta keda teni debito cuenta cu loke a largo plazo ta deseabel y miho pa e pais, na luga di anualmente controla si ta cumpli cu e normanan. Mi ta di opinion cu esaki mester conta igual pa Aruba y otro islanan. Mas cu claro mester percura pa e condicionnan dentro di cual esaki tin cu tuma luga.

Pa es motibonan aki mes mi ta di opinion cu mester tene cuenta cu e diferente consehonan cu tin riba mesa y alabes ta e momento ideal pa evalua LAft y RFT prome cu kier impone un supervision cu conoce su retonan y impacto negativo y indesea.

Guardian Group ta felicita

Duo deportista cu a marca historia na 140.6 Ironman

Guardian Group, e compania di seguro lider den Caribe ta felicita duo deportista Brainer Lampe y Disjonrick Jacobs cu nan logro na 140.6 Ironman na Maryland, USA. E compania di seguro ta sumamente orguyoso di e colaboracion cu Beyond Sports Limit Foundation pa asina sostene y yuda e duo cumpli cu nan soño.

Diasabra ultimo Brainer y Disjonrick, cu nan support team encabesa door di Gerald Moreta, a marca historia na Maryland, USA cu nan prestacion sublime. Nan a ricibi e Award Physically Challenged/Intellectual Disability Open Division, e prome den Special Teams, esun di mas hoben cu a competi den su categoria y a kibra e record den e 'Fastest Route'.

Guardian Group ta compromete na su responsabilidad social, cu e vision pa sostene y contribui na un sociedad prospero y saludabel. Desaroyo deportivo ta un pilar importante den e vision di e Guardian Group.

Deporte ta brinda oportunidad pa un persona alcanza su maximo potencial uzando su talento y conocimiento pa destaca. Ademá deporte ta uni comunidad y ta contribui na un estilo di bida saludabel. Cu e sosten aki, Guardian Group a contribui pa e duo dinamico aki pa a yega Maryland y sigui cu nan mision di saca cara di Aruba.

Mas aleu, Brainer y Disjonrick tin varios exito tras di lomba, manera: 3 marathon, 5 half marathon, 1 ironman 70.3, 1 Olympic distance triathlon, 75km duo Ronde van Aruba, 3 Sprint

distance triathlon y diferente careda di 5 cu 10km.

“Cu nos contribucion na e duo deportista aki nos ta enfatisa nos dedicacion na nos responsabilidad social y nos deseo di haci un impacto positivo riba nos comunidad. Beyond Sports Limit Foundation tin un historia admirable di sostene y crea oportunidadnan deportivo y inclusion pa personanan

cu un limitacion. E colaboracion aki ta duna nos oportunidad pa contribui na un mundo deportivo mas inclusivo cu ta brinda posibilidad na atletanan sobresaliente.” Esaki di acuerdo cu directiva di Guardian Group Aruba.

Guardian Group ta felicita Brainer, Disjonrick y Gerald cu nan prestacion y logro grandi na Maryland, USA. Pabien guys. Nos ta hopi orguyoso di boso!

CEDE Aruba su WAW Mobiel a bira realidad

Na cuminsamento di 2023 CEDE ARUBA a acerca stichting Jantje Beton di Hulanda pa asina sondea e posibilidad pa haci un speelscan pa Aruba. Un idea cu a origina dor di e programa nobo di CEDE ARUBA, Barionan Unico.

Durante e bishita di stichting Jantje Beton a pasa mira 40 diferente luga unda tin speeltuín of luganan di recreacion pa mucha y hoben. A base di e resultadonan ricibi, a nota cu hopi speeltuín no tabata den bon condicion y cu esaki ta haci nan peligroso pa mucha por haci uzo di nan. E dos representantenan tambe a combensa cu casi 100 hoben durante nan estadia na Aruba, pa asina siña mas kico e muchanan ta desea of kico nan lo kier pa wordo mehora. Nan a drenta bario, scolnan y organisacionnan pa por a colecciona informacionnan necesario. E representantenan di Jantje Beton a dialoga cu diferente instancia na Aruba y despues di a haci un analisis a manda nan recomendacion cual entre otro tabata e idea pa cuminsa cu un speelbus.

Despues di algun siman CEDE ARUBA ricibi e rapport oficial di stichting Jantje Beton di Hulanda y aki a consehonan tabata cla cu lo mester actua pa cumpli cu e necesidad cu nos muchanan tabata desea. E desea mas menciona tabata pa nan por tin un espacio cu nan por move y recrea cu ta brinda un seguridad y cu ta cerca di nan cas mes.

Na Hulanda ta haciendo uzo di e metodo aki, unda cu un

speelbus ta pasa pa un par di ora den barionan y cu bon resultado.

CEDE ARUBA a mira esaki den e idea aki un bon posibilidad pa cuminsa cu movecionnan den bario pa mucha y hoben, mientras ta busca solucion pa renobacion of reconstruccion di speeltuinnan cu nos tin caba den barionan.

Mirando cu lo mester di sumanan grandi pa reconstrui of renoba facilidadnan cu t'ey caba y cu e lo por dura den planificacion y ehecucion, CEDE ARUBA a tuma e reto di bay sondea e posibilidad pa cumpra un mini- bus of cargo van pa asina comberti e auto aki den un speelauto. CEDE ARUBA a tuma contacto cu IBISA pa hunto ehecuta e deseo di nos muchanan. IBISA su instructornan lo ehersa e tarea aki, mientras CEDE ARUBA lo busca material pa e bus. IBISA lo ta encarga pa hinca un programa y e structura den otro. Mirando cu esaki lo ta un proyecto piloto y cu mester di mas partnernan pa por completa henter e plan aki, CEDE ARUBA a acerca FCCA.

CEDE ARUBA ta hopi contento pa anuncia cu awor nan ta conta cu IBISA y FCCA pa e Proyecto piloto aki. Plannan ta pa cuminsa den luna di October 2023 cu e WAW Mobiel den bario. Durante BAN CAYA 2023 cu a tuma luga diadomingo 10 di September a inaugura e WAW Mobiel.

Minister Dangui Oduber

Den simposio di cardiologia a refleha riba e prome 5 aña di “Interventie Cardiologie” na Aruba

Diasabra mainta Minister di Turismo y Salud Publico sr. Dangui Oduber a haci apertura di e simposio di cardiologia. Un simposio hopi importante caminda nan a splica con Percutane Coronaire Interventie “PCI” a bira un realidad na Aruba desde aña 2018 y cuanto pashent a wordo trata haciendo uzo di e tecnologia aki.

PCI ta e nomber general pa trata arterianan coronario estrecha uzando hermentnan riba e punto di un catheter. E introduccion di proceduranan di PCI na Aruba tabata tin un impacto substancial den nos sistema di cuidu di salud. Minister Oduber ta orguyoso di bisa cu e desaroyo aki a y ta dunando nos localnan acceso na e miho cuidu coronario cu tin. Minister Oduber a sigui bisa cu prome cu aña 2018 hopi ta esnan cu mester a bay busca nan salud na Colombia ora ta trata di PCI. Awor cu tur esaki ta wordo haci na Aruba mes, e pashent no mester bay den exterior mas, e ta keda mas cerca di su famia. E pashent ta sinti su mes mas confortabel cu ta yuda hopi den e proceso di recuperacion. Tambe e PCI local a yuda na mitiga e crecemento di gastonan di AZV relaciona cu e crecemento den necesidad na e tipo di tratamento aki causa dor di entre otro e embehesementu di nos pueblo.

Di inicio Ministerio di Salud Publico a sostene e vision di dr. Lacle pa realisa un centro di PCI. E partnership cu Amsterdam UMC y Onze Lieve Vrouwe Gasthuis (OLVG) sigur tabata hopi importante pa realisa e vision aki. Danki na e centro aki a scapa hopi bida cu PCI cu por a wordo haci aki na Aruba mes.

E mandatario a gradici dr. Lacle pa su vision y iniciativa. Un danki tambe na tur e cardiologonan, tur e profesionalnan cu ta traha den e centro pa tur e bida nan cu nan a scapa durante e ultimo 5 añanan.

Finalmente e Minister Oduber a gradici dr. Lacle y dr. Dennert pa organisa un bunita simposio. E tabata hopi interesante y informativo, e ta demonstra e calidad di cuidu cu nos ta ofrece na Aruba.

Minister Ursell Arends:

Mas cu setenta Baki di Desperdicio colecta durante Baki den Bario na Santa Cruz

Diasabra ultimo a tuma luga e di dos edicion di Baki den Bario na Santa Cruz. Baki den Bario, cu ta forma parti di campaña nacional 'Limpi Limpi', ta un evento unda ta pone baki di desperdicio na diferente districtonan rond di Aruba.

E meta di e evento aki ta pa conscientisa nos poblacion riba separacion di desperdicio y e importancia di esaki. Pues ora di separa desperdicio, nos ta yuda e procesamiento di reciclahe cana mas eficiente y alabes, ta percura pa menos contaminacion den nos medio ambiente.

Diasabra ultimo entre 7'or pa 11'or di mainta un cantidad grandi di persona y segun nos calculacionnan alrededor di 500 auto, a bin haci uzo di e oportunidad pa trece desperdicio pa procesamiento. A logra colecta alrededor di 70 baki di desperdicio separa cual entre nan desperdicio di construccion, metal, e-waste, greenwaste, bulkwaste, taira y hasta carton.

Ministerio di Naturalesa ta sumamente contento cu e cantidad significativa di desperdicio cu a ser colecta y awor lo por wordo procesa debidamente. Esaki ta desperdicio di cual un gran parti por a termina den nos naturalesa.

E recepcion excepcional di Baki den Bario ta un muestra cu nos comunidad ta dispuesto di adopta practicanan sostenibel. Separacion di desperdicio ta un concepto relativamente nobo den nos comunidad y ta algo cu lo tuma cambio di mentalidad pa por implementa structuralmente.

Minister Arends ta recorda tur esnan cu ta desea di haci uzo di Baki den Bario pa haci e preparacionnan necesario den dianan binidero. Den e manera ki por evita di yega laat na e evento y no logra deposita desperdicio. Esnan cu a prepara di antemano a hasta logra pasa Baki den Bario mas cu un biaha entre 7'or pa 11'or di mainta.

Tambe un recordatorio cu durante cada evento di Baki den Bario lo tin un stand di FPNC (Fundacion Pa Nos Comunidad) unda cu lo acepta articulonan den bon estado cu por haya di dos uzo cerca un doño nobo. Articulonnan acepta ta, entre otro, mueblenan, paña y co'i hunga.

Adicionalmente, Serlimar lo tin un stand unda su clientenan por bin regla nan cuenta di pago y solicita transportacion di

nan desperdicio den caso cu no por logra trece. E servicio di transportacion di desperdicio, tambe ta telefonicamente.

E siguiente edicion di Baki den Bario lo tuma luga dia 7 di october den districto di Noord y lo continua te dia 16 di december 2023 den tur otro districto. Pa mas informacion tocante e desperdicio cu ta wordo acepta y e fechanan por bishita <https://trashtocasharuba.org/limpilimpi>

Diescuatro agente nobo pa Wardacosta Caribe Hulandes

Despues di a finalisa cu exito un estudio di un año, diabierna ultimo diescuatro aspirant a ricibi nan certificado y diploma di 'Buitengewoon Agent van de Politie' (BAVPOL), for di man di Director di Wardacosta di Caribe Hulandes, Walter Hansen y Alpha Falbru, Directora di 'Opleidingsinstituut Rechtshandhaving en Veiligheidszorg (ORV). E aspirantnan a ricibi e diploma y certificado durante un ceremonia na Marinebasis Parera. Awor e aspirantnan ta agente di Wardacosta completamente desaroya y establece y nan ta bay reforsa e basenan di Wardacosta na Corsou, Aruba y Sint Maarten.

E aspirantnan aki a cuminsa cu e estudio Basico di Wardacosta, e 'Basis Opleiding Kustwacht' (BOK) na augustus 2022. Durante e cuater simannan despues nan a ricibi nan formacion. E asina yama periodo 'Samen Sterk' durante cual nan a keda di test tanto mental como fisicamente.

Despues di e simannan di formacion a cuminsa e sobra di e formacion BOK y entre otro nan a ricibi lesnan basico di habilidad di tiro, habilidad nautico, habilidad di temanan di ley y proceso di embarcacion. E aspirantnan a haya bastante retonan fisico, mental y teoretico y awor ta cla pa proteha y yuda e comunidadnan.

Durante e ceremonia tanto Director di Wardacosta, Walter Hansen como Alpha Falbru Directora di ORV, a dirigi nan mes na e agentenan. Casi un año e aspirant nobo nan a anticipa e dia aki. Despues di a lucha duro y pasa periodonan largo for di nan cas y famia, awor nan por celebra nan logro. E diplo-

manan a yega y awor e trabou na Wardacosta por cuminsa. E agentenan nobo dentro di poco ta bay e puntonan di sosten di Wardacosta na nan pais caminda hunto cu otro agente di Wardacosta nan lo bay traha riba lama.

An advertisement for Todomar, a company specializing in marine products. The ad is divided into four sections: 'APPAREL' (clothing like a red cap and sunglasses), 'BOAT ACCESSORIES' (various boat tools and equipment), 'FISHING TACKLE' (fishing gear like a reel and lure), and 'FIBERGLASS PRODUCTS' (various fiberglass resins and molds). The Todomar logo is prominently displayed in the center. At the bottom, there is contact information for TodomarAruba, including a phone number (+297 585 0555) and social media handles.

Universidad di Aruba ta celebra 35 año di excelencia y un año Académico Prometedor

Riba un radiante diabierna mainta, 8 di september 2023, Universidad di Aruba a drenta su di 35 aniversario y a duna inicio na un año académico nobo. Gregorio Wolff:

Situacion malo pa e Trahado, Inflacion, Pensioen y mas

Den mi comunicado algun siman atras, mi a duna un splicacion detaya di e situacion actual cu e trahadonan ta aden, unda ta bisto cu nan ta bayendo atras dia tras dia.

Salario minimo ta subi poco a poco den cifranan, pero e salario minimo den comparacion cu e Canasta familiar=bestaansminimum ta bahando y yegando na 30% di e canasta familiar.

Si nos uza e version Hulandes cual ta bisa Bestaansminimum, esaki, esta e suma di bestaansminimum ta e cantidad di placa minimo pa bo mantene bo mes. Esey ta e miho splicacion cu por wordo duna. A base di e gasto di un paquete na Aruba, e famia di tata, mama y 2 yiu mester ricibi na placa tur luna pa nan no cay den pobreza. Awe e suma di e bestaansminimum ta 5.334 florin pa luna. E pobreza aki berdad no ta e pobreza o miho bisa e miseria cu nos ta wak na algun pais na Africa, na Latino-America o otro partinan di mundo, pero e ta criterionan di pobreza cu Gobierno a pone pa Aruba. Mi a splica tambe cu e consecuencianan di loke ta pasando awe por ta hopi mahos den futuro cercano.

Algun luna pasa, mi a publica e indicadornan economico di Aruba durante Status Aparte, esta for di 1986 pa ariba, unda ta bisto cu gobiernonan durante Status Aparte no a tene cuenta cu e trahadonan na Aruba. E indicadornan economico ta cifranan di Banco Central y Buro di estadisticanan di Aruba, CBS. No ta ami a traha e cifranan aki, pero loke mi ta skirbi ta cu e cifranan ta indica con malo e situacion di e trahadonan na Aruba ta.

Mi a haci un peticion pa un dialogo nacional pa coregi e tendencia malo aki, pero ta dificil ya cu nos ta memey di un periodo di gobernacion. E sorto di dialogonan aki semper ta sosode na inicio di un periodo di gobernacion, mesora despues di formacion di gobierno. Pues lubida por lo pronto of ta forma un gobierno nacional, sigui mesora pa un dialogo social y nacional, cu plannan pa ser ehecuta.

Situacion ta sigui malo pa e trahado

E situacion pa e trahado na Aruba cu ta gana salario o net eyriba ta preocupante, igualmente e posicion di e pensionado cu un areglo di pensioen, cual ta indica cu nos ta den un desaroyo malisimo. Ora nos analisa e indicadornan economico for di 1986 ta bisto cu a los e salarionan for di e productividad, productividad a subi pero e salarionan a stagna. Si salario minimo tabata casi 60% di e Canasta basico, awe e ta banda di 30%. Nos a pasa un periodo dificil durante Covid-19, pero awe nos ta wak cu empleo a recupera despues di Covid-19 y desempleo a baha. P'esey ta bon pa wak e tendencia. Siman cu a pasa gobierno a publica cu

e porcentahe di desempleo a baha considerablemente. Pues e inversionnan financiero den economia na Aruba tabata barbaro. Tambe ta un hecho, Costo di Bida a subi barbaramente.

Pues despues di Covid-19, E trahado su salario no a ricibi un contesta corecto=subimento di salario. Salarionan a keda leu di e productividad di su labornan. Pues e acumulacion di capital den e caso aki, nada no a bay pa e trahado, pero e elitenan meti den e negoshi aki a engrandece nan ganashi=capital. Acerca nos ta wak e yegada di miles di ilegalnan=refugiadonan economico, kendenan a crusa frontera pa un miho bida. E trahadonan aki ta resulta di ta un ayudo grandi na e empresarionan den construccion pa mantene e salarionan abao y engrandece nan ganashi=capital. E trahadonan aki no tin ningun clase di beneficiacion adicional. Nan ta sernan humano converti den esclavonan moderno, nan no mag ni reclama, corda pa nan negocia nan condicion di trabao. Dor di falta di sindicato, e trato pa e Arubiano y esnan legal ta igual na esnan cu ta ilegal, pasobra e contratista stranhero y esnan meti den e negoshi aki ta percura cu tin trato igual pa tur trahado. Un trato igual cu ta bay abao, no ariba. Negativismo den extremo.

Esaki ta haci cu na e centronan di trabao aki, ningun trahado ta contribui na caha di gobierno, ni na nos fondonan social cualnan ta nos hoyanan, e seguro medico general AZV y e Pensioen di Biehes na SVB.

MINISTRO DI LABOR BO T'EY.

E mensahe cu desempleo a baha, pa empresarionan y gobierno, esaki sigur ta ser mira como si fuera cu e situacion economico ta bon. Pero e trahado no ta mira esaki, e ta wordo bombardia cu un inflacion halto y su salario ta keda leu for di su productividad.

Accionnan sindical na hopi parti di mundo

Inflacion na mundo ta halto awendia. Tin guerra na Ucraina, sancionnan contra paisnan cu ta produci petroli, parce ta na moda y cual ta haci cu e costonan di energia a subi drasticamente na mundo. Energia ta percura pa e mashinnan economico traha.

Sindicatonan luchado no ta acepta cu e inflacion ta halto y e compensacion pa e subimento di costo di Bida no t'ey. Lidernan sindical di Aruba, boso T'ey. Ban lucha!!

Por ehempel na Hulanda e Federacion mas grandi di sindicatonan afilia, FNV, ta pidi pa un aumento di 14% di salario. Pronto lo cuminsa cu e accionnan pa cumpli cu e demanda aki. {Cont. na siguiente pagina}

{Cont. di pagina anterior}

Na Merca 3 dia pasa e sindicato UAW (United Auto Workers) a cuminsa un welga na 3 plantanan di construccion di auto, na 3 estado. Banda di 13 mil trahado a drenta den welga. Nan ta uza un strategia pa cuminsa na 3 planta y dependiendo di e negociacionnan e lucha por expande pa mas planta. Nan exigencianan ta un aumento di salario di 40% den 4 año y mei. E gerentenan di e 3 companianan a propone pa yega te cu un aumento di 20%, cual a ser rechasa, mientras UAW mes ta para awor na 36%.

Otro asunto cu UAW ta demanda ta miho areglonan di pensioen. Mas seguridad, sigur awor cu produccion di autonan electrico. Tambe pa traha menos ora pa siman.

UAW ta bon conoci pa su bon strategianan ora di negocia y welga pa logra cosnan grandi.

Nan proposicion pa traha menos ora pa siman, ta pone mi recorda con + 25 año pasa, mi persona como vocero di sindicatonan, a negocia e famoso ATV pa e trahadonan den sector publico traha 38 ora pa siman.

Fondo di Pensioen FPEF a nace for di un proposicion sindical, di SEPPA.

E pensionado na Aruba cu tin solamente un areglo di pensioen ta den mesun situacion cu e trahado cu ta gana salario minimo. E grupo aki di trahadonan o ex-trahadonan bo ta tende con nan ta reclama, pasobra e costo di bida ta sigui subi y nan calidad di bida ta bahando.

Un opcion cu sigur ta bale la pena pa nos tur, sigur pa trahadonan y cual lo bay yuda den futuro e trahadonan, ora nan ta pensionado, ta den man di trahadonan mes. Esta nos ta bay funda fondonan di pensioen den cada sector di nos bida cotidiano. Trahadonan por logra esaki despues cu organisa nan mes den sindicato cu tin un plan di formacion tanto pa e trahadonan como pa su lidernan.

Pues esaki ta un opcion cu trahadonan por logra, pero nan mester ta bon representa den un sindicato cu lidernan prepara pa e trabao. Esaki ya tabata practica caba, pues ya e a sosode.

Na inicio di añanan 90 di siglo pasa, Gobierno a cuminsa cu un politica di independisacion di varios departamentonan cu tabata cay bao servicio publico. A crea APA nv y WEB nv. Trahadonan cu tabata empleado publico y kendenan a bay den e nv-nan nobo a mantene nan derecho ariba pensioen den APFA=Fondo di pensioen pa empleadonan publico. Pero e derecho aki no a ser duna na trahadonan nobo den servicio di e nv-nan aki.

Despues di analisa e situacion, mi persona, como presidente di SEPPA e tempo ey, a traha un documento amplio cu proposicionnan e.o. pa statutonnan di un fondo di pensioen

nobo, reglamentonan di e varios formanan di pensioen, calculacionnan pa e sumanan di e pensionnan y tambe primanan cu trahadonan y empleador mester paga. Acerca splicacionnan tocante inversionnan y mas asuntunan. Mi a invita tur fundacionnan y nv-nan den sector publico pa inicia e discusionnan.

E number di fondo cu mi a propone tabata y a keda "FPEF"=Fondo di Pensioen pa trahadonan di Empresanan y Fundacionnan den Sector publico. Nos a cuminsa discusionnan cu hopi fundacion y nv-nan, pero al final ta APA nv y WEB nv so a keda na mesa di discusion. Discusionnan cu a dura mas di un año, Abogado Martis di Oficina di Abogado Brown y KPMG a yuda hopi den e discusionnan, sigur pa loke ta fine-tuning di e statutonnan y otro asuntunan financiero. Nos a yega na un final hopi bon, unda e dos nvnan a paga tur e gastonan financiero y e fondo a cuminsa draai. Mi mes e prome añanan tabata forma parti di e directiva=hunta di comisariado. Leu-leu, mi ta ricibi bon informacionnan ariba FPEF. FPEF ta sigui ariba un bon caminda.

Nos por crea fondonan di pensioen.

Pues nos por, for di sindicalismo ta sali proposicion cual ta yega na un bon final.

Esaki ta bale la pena pa ripiti, ya cu awe e pensioen di biehes di SVB maximalmente ta yega te banda di 30% di e suma minimo pa bo mantene bo mes sin cay den pobreza.

Pues nos ta na crusada di un caminda: Esta 1. nos ta keda ariba e caminda unda e calidad di bida di e trahado y despues ora e ta pensionado, ta bay di malo pa pio. Of 2. nos mes ta busca un solucion, cual ta un segundo pensioen pa tur trahado.

Algun sector tin areglonan bon, otronan menos bon, manera nos por a tende y lesa poco año pasa di pensioenadonan=ex-trahadonan di Hospital.

E caminda pa trahadonan tin un segundo fondo di pensioen ta muestra leu, pero nos no por keda warda te ora miseria bati na nos porta.

Tres asunto clave nos mester enfrenta y drecha cos pa nos bay dilanti:

Ban eleva drasticamente e grado di representacion sindical cerca trahadonan;

Ban hisa e nivel di Lucha sindical na Aruba cu inyeccionnan financiero grandi den formacion;

Cambia e mentalidad di Dunadonan di trabao pa nan gasta mas placa na fabor di nan trahadonan.

Pues ban ta positivo, continua cu e lucha di trahadonan y nos ta crusa e caminda pa un bida miho.

E bos di pashent pa un miho cuido

SIKI Aruba ta invita henter e comunidad pa hunto conmemora e siman aki den cuadro di 17 di september 2023

Tur pashent, dunado di cuido y departamentonan concerni por stimula pa envolve e pashent mas cu nunca den su propio cuido. E dia internacional di seguridad di pashent hustamente ta muestra cu e seguridad di pashent ta un tema esencial pa tur pais. Estudio ta muestra cu por lo menos 2 di cada 10 pashent lo experiencia un eror medico cu por hiba na daño na su salud of hasta morto. Aruba a logra hopi den e ultimo añanan pa mehora e seguridad di entre otro remedi, combati infeccion y algun eror medico comun, pero falta mas pa haci ainda. Entre otro mester mehora e comunicacion entre e diferente instancianan pa duna servicio of remedi safe, di calidad halto y na ora cu e pashent tin mester di dje y conforme e necesidad y preferencianan real di e pashent. Pa e motibonan aki e aña aki ta enfoca riba e tema di envolve e pashent den su propio cuido di salud. Ta conoci cu si e pashent tin e cuido den su mesun man, cu esaki ta mehora e seguridad y calidad. Esaki ta pa tres motibo.

E prome ta cu ta solamente e pashent a pasa den henter e cadena di cuido. Na Ingles ta yama esaki e 'patient journey'. Por ehempel, ta e pashent so a experiencia su dokter di cas, botica, bek pa dokter di cas, especialista y djey e biahe pa Colombia. Ta e pashent so por bisa kico tur el a experiencia. Cada dunado di cuido ta wak su parti y ningun departamento, AZV, etc., por wak of sa kico e pashent ta biba den carni propio. Door di hiba e experiencia aki bek den con nos ta organisa cuido algo asombroso lo sosode. Na e momento ey lo bira conoci unda tin riesgonan pa e salud, unda tin ineficiencia, unda por mehora e servicio y unda por mehora e experiencia di e pashent.

E di dos motibo pakico envolve e pashent ta necesario ta

pasobra cu e ta mehora e trato humano cual nos cada un ta digno di ricibi. Cuido di salud ta trata derechonan humano. Medicina no ta trata un number of un pida papel, sino personanan real. Personanan cu tin nan preferencianan, emocionnan, miedo y preocupacion. Nan tin nan circunstancianan personal y nan propio personalidad. Ta trata di respet pa e voluntad propio, proteccion di e ser humano y su privacidad. Ningun hende por wordo forsa pa tuma un remedi of tratamiento, ni tampoco pa permiti cu tercer persona ta coba den su data medico.

E tercer y ultimo motibo pakico envolve e pashent ta necesario, ta pasobra cu si e pashent por bisa kico e ta sinti e ta carga un propio responsabilidad pa e parti ey di su cuido. Ta conoci cu si un persona ta carga responsabilidad pa algo, cu esaki ta hisa e chens substancialmente pa e persona logra un resultado mas faborabel. Si un persona trece su propio idea con e por mehora su salud hunto cu su dunado di cuido, esaki ta hiba na un plan di cuido cu ambos ta carga. Esaki lo hiba cu e pashent mes lo percura pa su cuido cana miho.

E Organizacion Mundial di Salud (WHO) ta asina convenci cu envolve e pashent ta e caminda pa futuro, cu e aña aki a wordo declara e aña pa eleva e bos di pashent. Ta pidi pa gobierno, esnan cu ta traha maneho, sector di salud y comunidad completo pa facilita cu tur pashent ta mas involvi den su propio cuido di salud. Solamente hunto, nos por logra mehora e seguridad y calidad di cuido, mas ainda door di duna e pashent e manera pa haci uzo di su bos pa expresa su preferencianan y haci uzo di su derechonan como ser humano.

Autor: mr.dr. Jayburtt J. Dijkhoff

Fortaleza pa Famia

Obediencia, confiansa, fe y curashi ta tur locual nos mester

OBEDIENCIA ta demostra Fe y Confiansa den Dios. Nos mester ta obediente na Dios, si nos kier logra algo den bida, sin obediencia na Dios no tin crecimiento, pasobra crecimiento ta bini di Dios. Orguyo ta pone hende ta purba riba nan mes, pero ora nan ripara cu ta tempo perdi, di purba haci un cos y laga Dios afo, nan tin di bolbe bek na obediencia.

Cerca Dios no tin shortcut, sea bo ta haci su trabao manera mester ta, of bo no ta haya e resultado, manera mester ta. Nos no por haci trabao di Dios con cu ta. Ademá nos tin cu considera cu tur locual nos ta haci ta pa Dios nos ta haci'e.

Nos famia mester wordo educa, coregi, disciplina y stima den obediencia na Dios, pa asina Dios ricibi tur honor y gloria pasobra Dios riba tur cos.

Nos ta haya curashi ora nos confia cu Fe den e poder di Dios.

Curashi pa haci bon ta un gran manifestacion di Fe den Dios.

Un gran manifestacion di Fe y curashi a pone David enfrenta y derota Goliat.

Un gran manifestacion di fe y curashi a pone Moises crusa lama cura.

Un gran manifestacion di fe y curashi a pone Elias yama candela for di cielo.

Un Gran manifestacion di fe y curashi a pone Daniel bay den cueba di Leon y sali ileso.

Un Gran manifestacion di fe y curashi a pone Sadrac, Mesac y Abednego wordo tira den forno di candela y sali sin ta hole huma.

Un gran manifestacion di fe y curashi a pone Cristo Hesus, muri na cruz pa nos picanan, lanta despues di tres dia for di morto y ta sinta na man drechi di Tata.

Ora nos demostra Fe y Curashi den Señor ta un demostracion cu nos ta kere den Dios 100%.

E enemigo ta ofrece cobardia, maldad, traicion y inmoralidad tur caminda, y wak ken ta cay aden y asina permanece den scuridad. Hopi ta cay den su trampa, y no por sali, pasobra cobardia tin nan domina, pero tin poder den e nomber di Cristo Hesus pa libera, tur esnan cu ta cansa y carga. Sin obediencia na Dios nos Fe ta morto.

Stima nan, si nos curason no ta condena nos, nos tin confiansa dilanti di Dios.

Y kico cu nos pidi nos ta ricibi for di dj'E, pasobra nos ta warda su mandamentonan y ta haci cosnan cu ta agradabel den Su bista. Y esaki ta Su mandamento, pa nos kere den e nomber di Su Yiu Cristo Hesus, y stima otro mescos cu e ta stima nos. Y esun cu warda su mandamento nan ta permanece den dj'E, y E den dje. Y na esaki nos sa cu E ta permanece den nos, pa medio di e Spirito cu e a duna nos (1Juan 3:21-24).

Sea fuerte y fortalece boso curason boso tur cu ta spera den Señor (Salmo 31:24).

Spera riba Señor, sea fuerte y E lo fortalece bo curason, si spera riba Señor (Salmo 27:14).

Ata e wowo di Señor ta riba esnan cu ta tem'E, riba esnan cu ta spera riba su misericordia (Salmo 33:18).

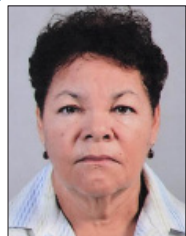

Forsa y conocimiento ta beneficio di Obediencia.

Esun cu paga tino na e Palabra lo haya bondad, y bendiciona ta esun cu ta confia den Señor (Proverbionan 16:20).

Den e tempo trabahoso cu nos ta bibando, nos mester acerca e trono di Dios constantemente, pa nos por haya pronto auxilio y ayudo na tempo.

Nos mester di Obediencia, Confiansa, Fe y Curashi.

Sinceramente, Pastor Marcel Balootje

Cu profundo tristeza, pero conforme cu Dios su boluntad, nos ta participa fayecimento cristian di nos mama, ruman y wela

DUO ATHLETE MAKES HISTORY AT THE 140.6 IRONMAN

Guardian Group congratulates

Duo Athlete for their Historic Achievement at the 140.6 Ironman Triathlon

GUARDIAN Group, the leading insurance company in the Caribbean, congratulates the two athletes Brainer Lampe and Disjonrick Jacobs for their historic achievement at the 140.6 Ironman in Maryland, USA. The insurance company is extremely proud of its collaboration with the Beyond Sports Limit Foundation to support and help these two individuals fulfill their dreams.

This past Saturday, Brainer and Disjonrick, with their support team led by Gerald Moreta, made history in Maryland, USA, with their outstanding performance. They received the Physically Challenged/Intellectual Disability Open Division Award, the first in the Special Teams category, the youngest competitor in their category, and broke the record for the 'Fastest Route'.

Guardian Group is committed to its social responsibility, with a vision to support and contribute to a prosperous and healthy society. Sports development is an important pillar in the Guardian Group's vision.

Sports provide an opportunity for individuals to reach their full potential by using their talents and knowledge to excel. Furthermore, sports unite communities and contribute to a healthy lifestyle. With this support, Guardian Group has contributed to this dynamic duo reaching Maryland and continuing their mission to represent Aruba.

Furthermore, Brainer and Disjonrick have achieved various successes, including 3 marathons, 5 half marathons, 1 Ironman 70.3, 1 Olympic distance triathlon, a 75km duo Ronde van Aruba, 3 Sprint distance triathlons, and several 5 to 10km races.

"With our contribution to these two athletes, we emphasize our dedication to our social responsibility and our desire to make a positive impact on our community. Beyond Sports Limit Foundation has an admirable history of supporting and creating sports opportunities and inclusion for individuals with disabilities. This collaboration gives us the opportunity to contribute to a more inclusive sports world that provides possibilities for outstanding athletes," according to the management of Guardian Group Aruba.

Guardian Group congratulates Brainer, Disjonrick, and Gerald on their outstanding performance and achievements in Maryland, USA. Congratulations, guys. We are very proud of you!

The Dutch Caribbean Coast Guard welcomes fourteen new agents onboard

AFTER successfully completing a year-long training program, on Friday the 14th, fourteen aspirants received their certificates and diplomas as “Buitengewoon Agent van de Politie” (BAVPOL) from the Director of the Dutch Caribbean Coast Guard, Walter Hansen, and Alpha Falbru, Director of the “Opleidingsinstituut Rechtshandhaving en Veiligheidszorg” (Institute for Law Enforcement and Safety). The aspirants were presented with their diplomas and certificates during a ceremony at the Parera Naval Base. These newly-certified agents will now serve as fully developed and established members of the Dutch Caribbean Coast Guard, reinforcing its ranks in Curacao, Aruba, and Sint Maarten.

These aspirants began their journey with the Basic Training of the Dutch Caribbean Coast Guard, known as the “Basis Opleiding Kustwacht” (BOK), in August 2022. Over the course of four years, they underwent rigorous training, including the “Samen Sterk” (Strong Together) phase, during which they were tested both mentally and physically.

Following this initial training period, they delved into the more specialized aspects of the BOK curriculum. This included lessons in marksmanship, nautical skills, legal matters, and vessel operations. The aspirants faced various physical, mental, and theoretical challenges and are now ready to protect and assist their communities.

During the ceremony, both Walter Hansen, Director of the Dutch Caribbean Coast Guard, and Alpha Falbru, Director of ORV, addressed the newly minted agents. It has been nearly a year since these aspirants began their journey, and after enduring substantial hardships and being away from their homes and families for extended periods, they can now celebrate their achievements. With their diplomas in hand, these agents will soon be deployed to various strategic locations in their respective countries, where they will work alongside other Dutch Caribbean Coast Guard personnel, continuing their maritime service and safeguarding the region.

SDG 8: Decent Work and Economic Growth

Navigating the Financial Hardships of Aruban Workers

SUSTAINABLE Development Goal 8 (SDG 8), titled “Decent Work and Economic Growth,” is a crucial component of the United Nations’ 2030 Agenda for Sustainable Development. It takes on particular significance when viewed through the lens of Aruban workers who often find themselves living paycheck to paycheck, grappling with the challenges of making ends meet in a world of rising costs and financial uncertainty.

SDG 8, at its core, seeks to champion inclusive and sustainable economic growth while ensuring that all individuals have access to productive employment that provides decent living conditions. However, for many Aruban workers, these aspirations remain elusive due to the unique hardships they face.

Promoting Economic Growth with Inclusivity:

Sustainable economic growth is paramount for Aruba, a nation heavily dependent on tourism. SDG 8 underscores the need to create an environment conducive to entrepreneurship, innovation, and investment. While Aruba’s tourism industry has thrived, it often leaves behind a segment of the population whose livelihoods are tied to it.

Living Paycheck to Paycheck:

A significant portion of Aruban workers find themselves caught in the paycheck-to-paycheck cycle. Despite gainful employment, they struggle to cover the high costs of living, including housing, healthcare, and education. The soaring prices in paradise sometimes lead to financial instability, making future planning and saving nearly impossible.

Youth Unemployment Challenges:

Aruba grapples with youth unemploy-

ment, a particular concern given its youthful population. SDG 8 aims to mitigate this issue by creating job opportunities and providing skills development. However, many young Arubans face the prospect of limited employment prospects and uncertain futures.

Balancing Economic Growth with Sustainability:

Aruba’s commitment to sustainable development resonates with SDG 8’s emphasis on responsible consumption and production. The nation is striving to balance its economic growth with environmental sustainability, especially in the context of its small land-mass and limited resources.

Small Businesses and Economic Resilience:

Small and medium-sized enterprises (SMEs) are vital in Aruba’s economic landscape. These businesses not only drive economic growth but also

contribute to job creation. Nurturing SMEs and providing them with support is an essential aspect of achieving SDG 8 while bolstering the resilience of Aruba’s economy.

In conclusion, Sustainable Development Goal 8, “Decent Work and Economic Growth,” resonates strongly with Aruban workers living paycheck to paycheck. While Aruba has enjoyed economic prosperity, it also faces unique challenges due to its economic structure and high living costs. Achieving SDG 8 in Aruba means addressing these hardships, promoting inclusive growth, and ensuring that decent work becomes a reality for all, especially those who strive to secure a better future amid the financial challenges they face. Ultimately, by achieving the objectives of SDG 8, Aruba can work toward a more equitable and sustainable economic landscape that benefits everyone.

8 DECENT WORK AND ECONOMIC GROWTH

CEDE Aruba Makes WAW Mobiel a Reality

AT the beginning of 2023, CEDE ARUBA approached the Jantje Beton Foundation from the Netherlands to explore the possibility of creating a play scan for Aruba. This idea originated from CEDE ARUBA's new program, "Barionan Unico."

During the visit of the Jantje Beton Foundation, they inspected 40 different locations where playgrounds or recreational areas for children and youth are located. Based on the received results, it was noted that many playgrounds were not in good condition, posing risks for children to use them. The two representatives also engaged in conversations with almost 100 youth during their stay in Aruba to learn more about what the children desire or what improvements they would like to see. They visited neighborhoods, schools, and organizations to gather the necessary information. The representatives from Jantje Beton engaged in dialogue with various authorities in Aruba, and after conducting an analysis, they provided recommendations, one of which was the idea to start with a play bus.

After a few weeks, CEDE ARUBA received the official report from the Jantje Beton Foundation from the Netherlands, and it was clear from their recommendations that action needed to be taken to meet the desires of our children. The most mentioned desire was to have a space where they could move and play safely and that is close to their homes. In

the Netherlands, they have been using this method, where a play bus visits neighborhoods for a few hours with great success.

CEDE ARUBA saw this as a great opportunity to start activities in neighborhoods for children and youth while seeking solutions for the renovation or reconstruction of existing playgrounds in the neighborhoods.

Recognizing that large sums of money would be needed for the reconstruction or renovation of existing facilities and that this might take time in planning and execution, CEDE ARUBA took on the challenge of exploring the possibility of purchasing a mini-bus or cargo van to convert it into a play vehicle. CEDE ARUBA contacted IBISA to collaborate on fulfilling the children's wishes IBISA's instructors will carry out this task, while CEDE ARUBA will seek materials for the bus. IBISA will be responsible for structuring the program. Since this is a pilot project that requires more partners to complete the entire plan, CEDE ARUBA approached FCCA.

CEDE ARUBA is pleased to announce that they now have IBISA and FCCA on board for this pilot project. Plans are to start with the WAW Mobiel in neighborhoods in October 2023. The WAW Mobiel was inaugurated during BAN CAYA 2023, which took place on Sunday, September 10th.

University of Aruba Celebrates 35 Years of Excellence and a Promising New Academic Year

ON a radiant morning of Friday, September 8th, 2023, the University of Aruba marked its 35th anniversary and ushered in a new academic year. The ceremony was graced by esteemed dignitaries, including His Excellency the Governor of Aruba, Mr. Alfonso Boekhoudt, Prime Minister Mr. Evelyn Croes-Wever, Minister of Education Eddy Croes, and distinguished ministers, alongside students, faculty, and honored guests, including Rectors from the University of St. Maarten and the University of Curacao.

In a heartfelt address, the University's Rector highlighted the institution's remarkable journey, characterized by substantial growth in student and Ph.D. enrollment, faculty expansion, and innovative programs like the Academic Foundation Year. The University's global, regional, and local network has significantly impacted society, fostering a community dedicated to education, research, and progress.

Former Rector Lydia Emerencia and former Rector Glenn Thode were warmly acknowledged for their contributions to the University's development.

Key accomplishments from the prior academic year included a positive recommendation from the Dutch Flemish Accreditation body for the Organization, Governance, and Management (OGM) bachelor program. The University also introduced new master's programs in Governance and Leadership, and Sustainable Island Solutions, reinforcing its commitment to academic excellence.

The initiation of the Kingdom Mobility Program, enabling students to study abroad, further enhances educational opportunities within the Kingdom and beyond.

Looking ahead, the University aims to expand its global network, develop new educational programs, and address space constraints to accommodate its growing community. The University of Aruba's dedication to serving the Aruban society extends beyond language barriers, encompassing Papiamentu, Dutch, and Spanish, reflecting its commitment to diverse and inclusive education.

Contribution of the alumnus :

Following the opening speeches, four distinguished alumni shared their inspiring journeys. Mr. Journey Tromp, a successful lawyer, and Nicolas Gordon, a thriving business owner originally from Jamaica, emphasized the impact of their University experience. Marisol, a communication manager at the Aruba Tourism Authority and a guest lecturer at the University highlighted the importance of tourism education. Tyson Lopez, CEO of Fundacion Parke Nacional Aruba, showcased the University's role in shaping leaders

dedicated to sustainability, diversity, and civic engagement.

The alumni expressed deep gratitude to the University for preparing them for leadership roles. President of the board of trustees, Mr. Juri Nicolaas, presented the book "Sagrado Secular" to commemorate the occasion.

Following the inspiring speeches, guests were invited to the library's exhibition, offering a glimpse into the University's 35-year literary journey. The University expressed gratitude to the Aruban, business, and international communities for their continuous support and collaboration. The University expressed heartfelt gratitude to the Government of Aruba for unwavering support.

Working poor

THE concept of the “working poor” shines a spotlight on a distressing aspect of hidden poverty within our society. It encapsulates the plight of individuals and families who, despite being employed, find themselves teetering on the precipice of financial instability. These hardworking individuals often confront the harsh reality that their wages, while earned through the toil of multiple jobs, are woefully inadequate to meet the ever-increasing costs of essential living expenses, including housing, healthcare, education, and more.

In a society where the rising cost of living consistently outpaces wage growth, the working poor are confronted with a relentless uphill battle. They are often trapped in a cycle of employment that barely provides a subsistence level of income, leaving them constantly on the brink of economic disaster. The burden of hidden poverty weighs heavily on their shoulders, as they grapple with the unrelenting stress of making ends meet, day in and day out.

One of the most striking aspects of the working poor is their dedication to labor. They diligently clock in for long hours, often juggling multiple jobs just to keep the financial wolves at bay. Yet, despite their unwavering work ethic and commitment to their responsibilities, they find themselves unable

to break free from the shackles of poverty. This paradox lays bare the harsh reality that gainful employment alone does not guarantee economic security.

The working poor face a multitude of challenges that extend beyond the immediate financial struggle. Their lives are marked by difficult choices and sacrifices. They may forego necessary medical treatment due to the high cost of healthcare, leading to worsening health conditions that can further hinder their ability to work and provide for their families. Educational opportunities for their children may be limited, perpetuating cycles of poverty.

Addressing the issue of the working poor requires comprehensive efforts on multiple fronts. It entails advocating for policies that promote a living wage, affordable housing, accessible healthcare, and quality education. It necessitates a reevaluation of societal priorities to ensure that the dignity of work is met with fair compensation and the opportunity for financial stability.

Ultimately, addressing hidden poverty, particularly within the ranks of the working poor, is not only a moral imperative but also essential for building a more equitable and just society where hard work truly leads to prosperity.

Exploring New Avenues of Learning in the Digital Age

IN the digital age, learning is undergoing a profound transformation, with an array of innovative approaches emerging to meet the diverse needs and preferences of learners. These new ways to learn are reshaping education, making it more accessible, engaging, and adaptable. Here, we delve into the exciting developments that are ushering in a new era of learning.

Online Learning Revolution:

One of the most notable shifts in recent years is the rise of online learning platforms and Massive Open Online Courses (MOOCs). These platforms, offered by esteemed institutions, have democratized education, allowing individuals worldwide to access a treasure trove of courses on virtually any subject. The flexibility to learn at one's own pace, often at a nominal cost, has made quality education accessible to a broader audience than ever before.

Personalized and Immersive Learning:

Personalization is a cornerstone of modern learning. With the aid of Artificial Intelligence (AI) and data analytics, educational platforms now offer tailored content, assessments, and pacing, catering to each learner's unique needs and preferences. Moreover, virtual reality (VR) and augmented reality (AR) technologies have ushered in immersive learning experiences. From medical simulations to historical reconstructions, these technologies offer an interactive dimension that enhances comprehension and engagement.

Empowering Peer Communities:

Learners today are no longer confined to solitary study. Online forums, discussion boards, and social media have facilitated the formation of global peer learning communities. Enthusiasts and experts connect to exchange knowledge, share experiences, and collaboratively enhance their understanding of various subjects. These communities foster a sense of belonging and motivate learners through shared goals.

Lifelong Learning Ecosystem:

Learning is no longer confined to the classroom or specific age groups. In the digital age, learning is a lifelong pursuit. Whether through podcasts, language learning apps, coding bootcamps, or open educational resources (OER), individuals have an array of options to continually acquire new skills and knowledge throughout their lives. Learning has transcended traditional boundaries and is now integrated into the fabric of daily life.

In conclusion, the digital age has ushered in an exciting era of learning, redefining how we acquire knowledge and skills. These innovative approaches emphasize accessibility, personalization, collaboration, and lifelong learning.

As technology continues to evolve, so too will the landscape of education, offering learners unprecedented opportunities to grow and adapt in a rapidly changing world.

Tragic Collision Claims Lives of Two Pilots at Nevada Airshow

IN a heart-wrenching incident that unfolded at an airshow in Reno, Nevada, the aviation world was struck by tragedy as two air-racing pilots lost their lives on Sunday when their aircraft collided mid-air and subsequently crashed. The grim episode occurred in the aftermath of the highly anticipated T-6 Gold Race, a marquee event at the national championship air races.

The two pilots who met their untimely fate in this catastrophic accident have been identified as Chris Rushing, who hailed from Van Nuys, Los Angeles, and Nick Macy, representing Tulelake, California.

Fred Telling, the Chairman of the Reno Air Racing Association, expressed his profound sorrow and stated, "I am utterly devastated and heartbroken today." He underscored the sobering reality that all pilots face, acknowledging, "It could happen to any one of us. As pilots, we may hope that such a tragedy will elude us, but we are acutely aware of its potential."

Clarifying the nature of the incident, Telling emphasized that this was a "post-race landing accident," leaving many questions surrounding the circumstances leading up to it. The investigation into this tragic occurrence has been launched as a collaborative effort involving the National Transportation Safety Board (NTSB), the Federal Aviation Administration (FAA), and local authorities, all striving to ascertain the root causes.

This heart-rending collision unfolded on the concluding day of the air races, casting a somber shadow over the event, where the two pilots had recently secured first and second place in the finals. This incident serves as a poignant reminder of the inherent risks entailed in the world of air racing, as it marks another addition to the somber list of aviation tragedies. The aviation community collectively grieves this devastating loss, emphasizing the profound trust that binds racers and aviators, even in the face of such unfortunate circumstances.

Dutch Majority in Parliament Pushes to Halt Fuel Tax Increase, Funding Debate Looms

A majority in the Dutch Parliament is advocating for the reversal of the planned fuel tax increase scheduled for implementation on January 1st. Under this proposal, the cost of a liter of gasoline was set to rise by 21 cents starting from January 1st. A Kamermeerderheid (Parliamentary Majority) now intends to put a stop to this. “My goal is crystal clear: I want to counteract this cost increase,” states Sophie Hermans, the VVD party’s faction leader.

Times are tough at the pumps. Last July, a portion of the excise duty reduction introduced by the government following the outbreak of the Ukraine conflict was rescinded, significantly raising fuel prices. Commencing January 2024, the remaining excise duty reduction would be nullified, further compounded by an inflation correction, ultimately driving the total price increase of a liter of gasoline to 21 cents.

‘Totally Unacceptable’

A Parliamentary majority, consisting of the VVD, PVV, SP, BBB, FvD, DENK, Fractie Den Haan, BVNL, and JA21, seeks to abolish the fuel tax increase. They are expected to present this stance during the upcoming Algemene Politieke Beschouwingen (General Political Considerations) scheduled for Wednesday and Thursday.

“These prices are utterly unacceptable,” asserts Geert Wilders, the PVV leader. “People use their cars not just for pleasure but also out of necessity.” Sophie Hermans of the VVD states, “Fixed expenses are skyrocketing for all those families with regular incomes, families that work hard or have always worked hard. So, our objective will be to counteract this increase.” Regarding

funding, Hermans notes, “We need to identify unallocated funds that are still available. Where is the money that can cover this?”

The government had declared last month that there were insufficient funds available to annul the increase. Over two billion euros have been allocated solely for poverty alleviation. Eliminating the fuel tax increase carries a significant price tag, says political correspondent Roel Scheinemachers. “It involves an amount of 1.2 billion euros. There is currently no consensus on how to finance this. Hence, it remains uncertain whether the entire fuel tax increase will ultimately be revoked or only a portion thereof.”

Unintended Consequences

There are also drawbacks to reversing the fuel tax increase, as explained by Schreinemachers. “Abandoning the fuel tax hike is a broad measure, benefiting even those motorists who do not necessarily require it and can comfortably afford the higher pump prices.

Therefore, it would be more effective to assist those significantly impacted financially in a different manner. Moreover, the high fuel prices may lead people to use their cars less frequently, which some parties might view favorably.”

Other Priorities

Conversely, other political parties have not proposed fuel tax reductions. Parties such as GroenLinks-PvdA, D66, and the CDA have already indicated alternative priorities, including raising the minimum wage, reducing energy bill taxes, or implementing tax cuts for all workers.

In conclusion, a Parliamentary majority in the Netherlands is rallying against the impending fuel tax increase set for January 1st, reflecting concerns about its impact on families and motorists. The funding for this rollback remains a subject of debate, as different parties express varying stances on how best to allocate resources and address the economic repercussions.

Resilience and Triumph:

Shaquil Barrett's Touching Dedication

TAMPA Bay Buccaneers linebacker, Shaquil Barrett, exhibited remarkable resilience and profound determination during a pivotal moment in Sunday's game against the Chicago Bears, which resulted in an emotional touchdown. Barrett dedicated this game-changing play to his late two-year-old daughter, Arrayah, who tragically lost her life in April of this year due to a swimming pool accident.

With just 2:12 remaining on the game clock and the Tampa Bay Buccaneers holding a precarious 20-17 lead, the Chicago Bears' quarterback, Justin Fields, dropped back into the end zone for a crucial pass. It was in this high-stakes moment that Barrett intercepted Fields' pass at the Bears' own four-yard line.

Demonstrating extraordinary determination, Barrett overcame multiple tackles, with the support of his teammates, to carry the ball across the goal line. This remarkable interception marked the 30-year-old linebacker's second career interception and his very first touchdown.

Following the touchdown, Barrett paid a poignant tribute to his late daughter by blowing a kiss to the sky. He subsequently shared this emotional moment with the media, wearing a heart-shaped necklace adorned with his daughter's image. He stated, "I've always played for my family, but having that extra incentive to push a bit harder for her... at least I can shine a spotlight on her a little."

In addition to celebrating his triumphant moment, Barrett candidly discussed the challenges he faced in coping with the loss of his daughter, particularly during the offseason. These difficulties were compounded by his arduous journey

to return to the field following an Achilles tendon injury sustained in October of the previous year. Barrett credited his faith and the unwavering support of others for helping him regain his focus on football.

Opening up about his struggles with grief, Barrett recounted the overwhelming emotions he experienced just before the season opener against the Minnesota Vikings. He explained that he was "struggling real bad" and couldn't contain his tears. He sought solace in a call to his wife, and the coaches checked in on his emotional well-being. However, he experienced a transformative moment when the wave of emotions seemingly dissipated, allowing him to concentrate on the game. Barrett attributed this shift to the power of prayer and the belief that people were praying for him.

In reflection on the pivotal play on that Sunday afternoon, Barrett expressed his belief in "divine intervention." He asserted his readiness to embrace whatever the future holds and his unwavering faith in a higher plan, stating, "He's setting us up for something that we need, and I'm just ready for it. I'm waiting for it, and I'm going to believe in Him and believe in this plan for sure. And I do feel like it was divine intervention to be able to just get that spotlight for my baby girl."

In summary, Shaquil Barrett's dedication of a game-changing touchdown to his late daughter stands as a testament to his resilience and determination in the face of personal tragedy. His story serves as an inspiration to many, demonstrating the power of faith, the support of loved ones, and the capacity for triumph in the midst of adversity.

Assessing Chaim Bloom's Tenure and the Boston Red Sox's Ongoing Struggles

IN a surprising move, the Boston Red Sox have relieved Chaim Bloom, their chief baseball officer, of his duties as they find themselves languishing in last place within the American League East, with little hope of making the playoffs. This decision has raised eyebrows in the baseball world, as many expected Bloom to receive another year to guide the Red Sox back to postseason contention, especially considering their run to the ALCS under his leadership in 2021.

Bloom's tenure in Boston began with the notable trade of Mookie Betts to the Los Angeles Dodgers. This trade, which sent away a beloved and talented player like Betts, has remained a point of contention and will likely be the defining moment of Bloom's time in Boston. However, it's important to examine the broader context and distribute blame for the team's recent struggles.

When Bloom took the helm, he inherited a challenging situation. The Red Sox had recently won the 2018 World Series but had regressed to an 84-win season while maintaining the highest payroll in baseball, largely due to high-priced veterans. Bloom was tasked with maintaining competitiveness while simultaneously reducing payroll and rebuilding a farm system that was considered one of the weakest in the league. His hiring seemed logical, given his successful decade-long tenure with the Tampa Bay Rays, a team known for doing more with less.

Under Bloom's leadership, the Red Sox have made strides in rebuilding their farm system and trimming their payroll to just below the Competitive Balance Tax threshold. However, this alone doesn't capture the complexity of Bloom's tenure.

The pivotal moment came with the trade of Mookie Betts, a decision influenced by ownership's reluctance to engage in a bidding war for Betts' services, as he approached free agency. This trade has not yielded the expected returns, with only Alex Verdugo proving to be a solid acquisition. Meanwhile, the Red Sox included David Price in the deal to offload undesirable contracts.

Another perplexing move involved Xander Bogaerts, a franchise cornerstone akin to Betts. After initially offering Bogaerts a low-ball contract extension, the Red Sox awarded a lucrative deal to Trevor Story, even before Bogaerts' contract had expired. Player development and free agency have seen mixed results under Bloom. The farm system has improved, international signings have yielded prospects, and free-agent signings have generally been successful. However, the big-ticket decisions, such as the Betts trade and Story's contract, have overshadowed these positive develop-

ments.

In assessing blame for the Red Sox's struggles, it's essential to consider the ownership's expectations. The ownership's desire for immediate success and rapid shifts in strategy have created a challenging environment for any executive. John Henry's high expectations and propensity for swift changes have arguably hindered the team's sustained success.

In conclusion, while Chaim Bloom's tenure in Boston had its successes, it was marked by challenging circumstances and high-pressure expectations. Blame for the Red Sox's recent downturn should be distributed across multiple factors, including ownership's demands for immediate results and the complexities of managing a team with high payroll expectations and a need for rebuilding. The question now remains: Who will take the reins in this demanding environment and lead the Red Sox back to glory?

Proficiency in Cross-Cultural Communication in the Era of Globalization

IN the contemporary globalized landscape, the mastery of effective cross-cultural communication stands as an imperative skill. Interactions across cultural divides permeate various facets of life, extending from professional realms to educational pursuits and daily interpersonal exchanges. To navigate these interactions successfully, it is incumbent upon individuals to not merely acknowledge cultural diversity but to comprehend and appreciate the intricacies that mold distinct cultural norms, values, and communication modalities.

The Salience of Cross-Cultural Communication:

The prominence of cross-cultural communication emanates from its multifaceted significance. It conduces to mutual comprehension among individuals hailing from diverse cultural milieus, thereby abating the incidence of misunderstandings and misinterpretations. Moreover, it serves as the bedrock for cultivating robust interpersonal and professional relationships by enabling individuals to foster deeper connections across cultural boundaries. Furthermore, cross-cultural communication plays a pivotal role in conflict resolution, mitigating the potential for disputes stemming from cultural disparities. In the commercial domain, the adeptness in cross-cultural communication is pivotal for venturing into global markets, fostering strategic alliances, and nurturing efficacious international collaborations.

Cognizance of Cultural Norms:

At the nucleus of effective cross-cultural communication lies an acute awareness of cultural norms. Distinct cultures espouse unique communication paradigms, with some favoring candid and assertive modes of expres-

sion, while others endorse indirect and courteous approaches. A profound comprehension of these disparities is indispensable for the precise and deferential conveyance of messages. Furthermore, the significance of non-verbal cues cannot be overstated; nuances in gestures and body language can exhibit profound variances among cultures. Actions that signify respect within one cultural context may inadvertently convey disrespect within another. Hence, discernment and deference to these non-verbal cues are fundamental in averting inadvertent misapprehensions.

Effective Strategies for Cross-Cultural Communication:

In the pursuit of excellence in cross-cultural communication, several strategic frameworks merit implementation. Foremost among these is the practice of active listening, which engenders a comprehensive apprehension of the viewpoints and intentions of interlocutors. Similarly, an expression of esteem for cultural disparities is requisite as it discourages presumptions or judgments rooted in the prism of one's own cultural milieu. Cultural

acumen, cultivated through an acquisition of knowledge about the rituals and customs intrinsic to other cultures, is equally crucial. Flexibility and adaptability in communication methodologies are paramount, affording individuals the latitude to accommodate the predilections of those with whom they engage.

Lastly, patience constitutes an invaluable virtue, given the intricacies that characterize cross-cultural communication. The willingness to navigate the ensuing challenges with equanimity is *sine qua non*.

In summation, the acquisition of proficiency in cross-cultural communication stands as a quintessential aptitude within our interconnected world. It necessitates a discerning sensitivity to cultural norms, values, and communication conventions, complemented by a strategic framework that promotes understanding and deference. Through the cultivation of cross-cultural competence, both individuals and institutions can foster the fortification of relationships, the prevention of conflicts, and the flourishing within the heterogeneous tapestry of our global society.

The Power of Acts of Kindness:

A Ripple Effect of Happiness

IN a world often marked by hustle and bustle, acts of kindness shine as beacons of hope and compassion. These simple, yet profound gestures have the remarkable ability to create a ripple effect that extends far beyond the initial act.

When we reflect on times when we or someone else performed an act of kindness, we tap into a wellspring of joy and positivity, for kindness has the power to illuminate even the darkest of days.

The Ripple Effect of Kindness:

Kindness is not just a solitary moment in time; it has the potential to reverberate throughout our lives and the lives of others. When we recall moments of kindness, we become part of a ripple effect that touches hearts and inspires goodwill. That smile you shared with a stranger, the helping hand you extended to a friend, or the anonymous act of generosity you witnessed—all these acts have a profound impact.

Happiness in Recollection:

When we remember and reflect upon these acts of kindness, we not only experience happiness ourselves, but we also perpetuate the cycle of goodwill. The warm feeling that accompanies the memory of a kind act can boost our mood, reduce stress, and create a sense of interconnectedness with our fellow human beings.

Inspiration for More Acts of Kindness:

Recollection of acts of kindness can serve as a powerful motivator. It reminds us that we, too, have the capacity to make a positive difference in the lives of others. By reflecting on these moments, we are inspired to engage in more acts of kindness, thereby perpetuating a cycle of compassion that transcends boundaries and brings communities closer together.

Building a Kinder World:

In a world often marked by division and strife, kindness remains a unifying force. By reflecting on and cherishing acts of kindness, we contribute to the collective aspiration for a more compassionate world. Each act of kindness, no matter how small, creates a ripple, and when these ripples converge, they have the power to bring about meaningful change.

In conclusion, acts of kindness are not fleeting moments; they are the building blocks of a brighter and more harmonious world. Reflecting on the times when we or others performed acts of kindness reminds us of the immense potential we hold to make the world a better place. Kindness has a ripple effect, and as we nurture and cherish this ripple, we become catalysts for happiness, positivity, and transformation.

The Remarkable Transformation:

Embracing Dogs as Beloved Indoor Companions

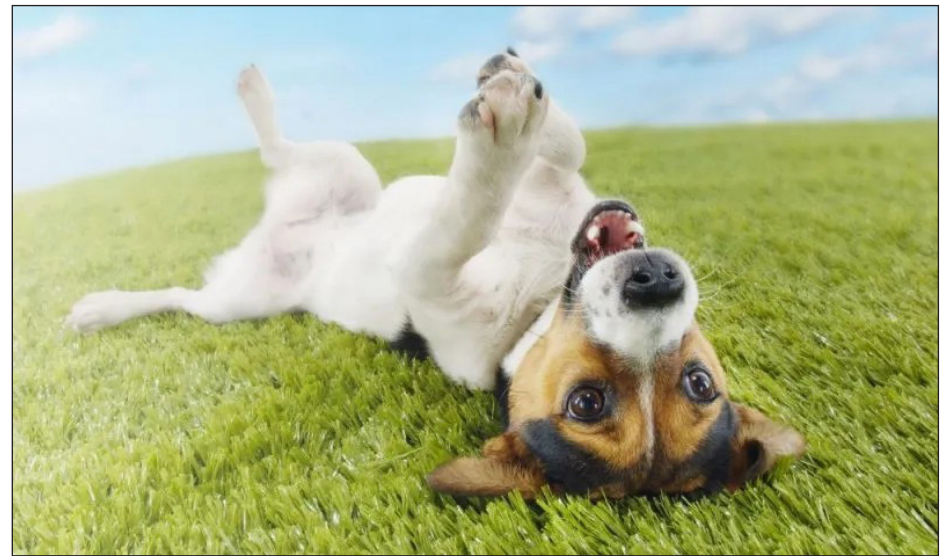

FOR the longest time, I was a staunch advocate of the belief that dogs should remain outdoors, safeguarding my home from potential threats. Little did I know that my perspective would undergo a profound shift when I welcomed these furry friends into my life. What transpired was a series of remarkable advantages that had previously eluded my imagination.

Companionship Beyond Measure: Dogs are renowned for their unwavering loyalty and companionship. Far more than mere pets, they quickly become cherished members of the family. Their mere presence has an incredible ability to alleviate feelings of loneliness and isolation, filling your home with an abundance of warmth and affection.

Physical Activity and Well-being: The decision to invite a dog into your life inevitably leads to increased physical activity. Dogs require regular exercise, prompting you to embark on daily walks and engage in spirited playtime. This newfound commitment to physical well-being not only enhances your fitness levels but also contributes significantly to your overall health.

Enhancing Mental Health: Dogs possess an innate ability to provide emotional solace. Their calming presence, affectionate gestures, and the ever-joyful wagging of tails work wonders in alleviating stress and anxiety. In the company of a dog, your spirits are lifted, and you gain an invaluable source of emotional support.

Embracing Responsibility: The daily care of a dog entails a range of responsibilities, from feeding to grooming and

regular veterinary visits. This nurturing role imparts essential life skills and fosters a sense of responsibility, especially among children. The bonds formed while caring for a dog bestow upon us a sense of fulfillment and purpose that permeates every aspect of our lives.

In conclusion, the decision to bring dogs indoors as cherished companions yields a treasure trove of advantages beyond conventional notions of protection. These loyal and loving friends enrich our lives in ways that can only be fully appreciated through experience. Nevertheless, it's imperative to remember that dog ownership entails a commitment of time, effort, and financial resources. Yet, the profound bond formed with these four-legged family members renders every sacrifice worthwhile. If you've ever contemplated the idea of inviting a dog into your life, be prepared to embark on a journey of unexpected advantages and immeasurable joy that will forever transform your outlook on pet companionship.

The Role of Vibrational Frequency in Spiritual Beliefs

VIBRATIONAL frequency, a concept deeply rooted in spirituality, offers a fascinating bridge between the mystical and the scientific. It posits that everything in the universe, from tangible matter to our most abstract thoughts and emotions, vibrates at distinct energy levels.

This intriguing concept suggests that by understanding and harnessing these vibrations, individuals can enhance their well-being, attract positivity, and forge deeper connections with their spiritual selves.

At the heart of vibrational frequency lies the idea that energy and vibration are foundational to existence. Advocates of this concept propose that even our thoughts and emotions emit unique energies that resonate within the universe. This connection between energy and spiritual experience forms the basis for various spiritual practices.

One fundamental principle stemming from this concept is the Law of Attraction, which asserts that similar energies attract one another. Consequently, those who cultivate a positive, high-frequency state of mind are believed to draw positive experiences, people, and opportunities into their lives. This principle underscores the potential of our thoughts and emotions to shape our external realities.

To raise one's vibrational frequency, individuals often engage in spiritual practices such as meditation, chanting, and energy healing. Meditation, in particular, provides a powerful means of elevating one's frequency by quieting the mind and focusing on positive thoughts or intentions. Chanting and mantras, frequently employed in spiritual traditions, employ rhythmic repetition to raise vibrational frequency, leading to inner peace and clarity. Energy healing modalities like Reiki aim to balance the body's energy and promote physical and emotional healing.

The pursuit of a higher vibrational frequency in spiritualism is intrinsically linked to personal growth and spiritual connection. As individuals raise their vibrational frequency, they often report a heightened sense of self-awareness and a deeper connection to their higher selves, associated with wisdom and enlightenment. Moreover, this concept underscores the interconnectedness of all living beings and the universe, fostering feelings of unity and compassion.

While the scientific validity of vibrational frequency remains a topic of debate, its profound impact on the spiritual journey cannot be denied, offering individuals a unique lens through which to explore their inner worlds and their place in the grand tapestry of existence.
